As of 1:30pm ET, March 28

New Jersey COVID-19 Information Hub

Positive‡	11124
Deaths	140
Negative Results*	19386

Department of Health COVID-19 home page >

‡ Includes deaths and results reported by state, commercial and medical center laboratories
* This figure includes data reported to the state by the state lab plus seven private laboratory entities, representing about 95 percent of private testing capacity in New Jersey.

Childhood Vaccines, Checkups, and COVID-19

Providers may not be able to provide well-child visits & immunizations for all patients at this time. If a practice can provide only limited well-child visits, they should prioritize newborn care and vaccination of infants and young children (through 24 months of age) when possible.

More >

Some New Jersey schools have flooring, once commonly installed in gymnasiums and all-purpose rooms, that may contain mercury.
