Given
First Shot / Second Shot
(residents and non-residents)

184,377 / 55,997

Total Doses
Used

57%

Pfizer & Moderna Appointments Scheduled
Not including third-party providers

541,212

The information above and in the spreadsheets below reflects the data entered by vaccine providers into the federal Vaccine Administration Management System (VAMS) database. Vaccine **providers are** <https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf>**required** <https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf> **to log specific information** <https://scdhec.gov/sites/default/files/media/document/pho_vams%20reporting_7a_1.7.21.pdf> about each vaccine they administer within 24 hours. As indicated in the spreadsheets below, several hospitals and health care facilities receive their vaccine shipments each week directly from the federal government; the shipments do not come to DHEC first.

Key points about vaccine allocation data include:

Pfizer-BioNTech vaccine allocation by facility

(residents and non-residents)

20,427 / 13,925

1st / 2nd Clinics Scheduled
Through LTC Program

1,491

3rd Clinics Scheduled
Through LTC Program

683

The **CDC's Long-Term Care Program** <https://www.cdc.gov/vaccines/covid-19/long-term-care/pharmacy-partnerships.html> is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are among the first to receive their shots. CVS and

Walgreens began holding vaccine clinics at these facilities on December 28, 2020.
Long-term Care Program data is recorded in a federal database called Tiberius. The information in the spreadsheets below, from Tiberius, isn't managed by DHEC.
