COVID-19 Vaccine Allocations in South Carolina

Tuesday, March 16, 2021

This page will be updated regularly as information becomes available.

Beginning March 30, duplicate vaccine data (i.e., vaccines received, given, doses used, etc.) will be relocated from the **vaccine allocations** </covid19/covid-19-vaccine-allocation> page to be included in **DHEC's vaccine dashboard** </covid19/covid-19-vaccination-dashboard>. The same data will be provided, located in the interactive dashboard. This page will continue to display vaccine provider allocations and Moderna vaccine used for LTC Program.

Beginning March 5, the allocation and administration data for this webpage is sourced from South Carolina's Statewide Immunization Online Network (SIMON). Prior to March 5, the data on this webpage was sourced directly from both the federal VAMS database and SIMON database. Data from the federal VAMS database funnels into the state's SIMON database, and the SIMON database is the most current and accurate source for vaccine information for South Carolina. The SIMON database also powers DHEC's vaccine dashboard. *<https://scdhec.gov/covid19/covid-19-vaccination-dashboard>*

Total Doses Received
in South Carolina

3rd Clinics Scheduled
Through LTC Program

678

The **CDC's Long-Term Care Program** <https://www.cdc.gov/vaccines/covid-19/long-term-care/pharmacy-partnerships.html> is a federal partnership between Walgreens and CVS pharmacies. These pharmacies are holding vaccination clinics at every long-term care facility in South Carolina, ensuring those most vulnerable to COVID-19 and the workers who care from them are among the first to receive their shots. CVS and Walgreens began holding vaccine clinics at these facilities on December 28, 2020. **Long-term Care Program data is recorded in a federal database called Tiberius. The information in the spreadsheets below, from Tiberius, isn't managed by DHEC.**
