# Coronavirus: Situation in Switzerland

Data and reports on the epidemiological situation in Switzerland and Liechtenstein, press conferences and coronavirus news can all be found here.

- [v Epidemiological situation in Switzerland and Liechtenstein](#)
- [v COVID-19 vaccination statistics](#)
- [v COVID-19 management: Strategic basis at federal and cantonal level](#)
- [v Monitoring and interim reports](#)
- [v Search for antibodies](#)
- [v Scientific advisory body](#)
- [v Press conference, 20 January 2021, 2pm](#)

## Epidemiological situation in Switzerland and Liechtenstein

For key figures of laboratory-confirmed cases, hospitalisations, deaths, tests,  $R_e$  values, hospital capacity and contact tracing (isolation and quarantine) visit [www.covid19.admin.ch](http://www.covid19.admin.ch).

The  $R_e$  values are also updated at weekends and on public holidays. We publish the current key figures for the other indicators from Monday to Friday (with the exception of public holidays).

## Daily report

You can download the daily report as a PDF and data in CSV or JSON format at [www.covid19.admin.ch](http://www.covid19.admin.ch).

You can continue to receive the following data as Excel files:

- **Daily report data** available in [x German](#) (XLS, 32 kB, 22.01.2021); [x French](#) (XLS, 32 kB, 22.01.2021) or [x Italian](#) (XLS, 32 kB, 22.01.2021)
- [Data on laboratory findings and deaths](#) (CSV, 117 MB, 22.01.2021)
- [Data on tests conducted](#) (XLS, 20 kB, 22.01.2021)
- [Demographic data by canton and age group](#) (XLS, 115 kB, 23.12.2020)

## Weekly report

This report, published every Thursday morning, provides an informative overview of the epidemiological situation and trends.

### Week 2, 20.1.2021

Weekly report on the epidemiological situation in Switzerland and Liechtenstein available in [pdf German](#) (PDF, 1 MB, 21.01.2021); [pdf French](#) (PDF, 1 MB, 21.01.2021) or [pdf Italian](#) (PDF, 1 MB, 21.01.2021)

## Previous daily and weekly reports

You will find all the previous reports in the zip files specified below; daily reports since 7 March 2020, weekly reports since calendar week 25 (2nd quarter 2020)

German:

-  [2020\\_Q1](#) (ZIP, 9 MB, 28.08.2020)
-  [2020\\_Q2](#) (ZIP, 55 MB, 28.08.2020)
-  [2020\\_Q3](#) (ZIP, 45 MB, 05.10.2020)
-  [2020\\_Q4](#) (ZIP, 32 MB, 07.01.2021)
  
-  [2021\\_Q1](#) (ZIP, 7 MB, 21.01.2021)

French:

-  [2020\\_Q1](#) (ZIP, 12 MB, 28.08.2020)
-  [2020\\_Q2](#) (ZIP, 75 MB, 28.08.2020)
-  [2020\\_Q3](#) (ZIP, 46 MB, 05.10.2020)
-  [2020\\_Q4](#) (ZIP, 31 MB, 07.01.2021)
  
-  [2021\\_Q1](#) (ZIP, 7 MB, 21.01.2021)

Italian:

-  [2020\\_Q1](#) (ZIP, 5 MB, 28.08.2020)
-  [2020\\_Q2](#) (ZIP, 62 MB, 28.08.2020)
-  [2020\\_Q3](#) (ZIP, 56 MB, 05.10.2020)
-  [2020\\_Q4](#) (ZIP, 33 MB, 07.01.2021)
  
-  [2021\\_Q1](#) (ZIP, 6 MB, 21.01.2021)

## COVID-19 vaccination statistics

Twice a week we publish statistics on the COVID-19 vaccination. In the PDF you'll find the following information:

- Number of vaccine doses delivered to Switzerland (total and by canton)
- Number of vaccine doses administered in Switzerland (total and by canton)
- Number of doses administered per 100 population

 [COVID-19 vaccination statistics: at 21 January 2021](#) (PDF, 116 kB, 22.01.2021)

From mid-February you'll find these statistics at [www.covid19.admin.ch](http://www.covid19.admin.ch) .

## COVID-19 management: Strategic basis at federal and cantonal level

The federal government and the cantons have interrelated tasks in the management of COVID-19. This results in a need to coordinate assessments, reconcile measures and define processes. This brief strategy paper sets out to clarify the basic principles governing these issues over the months to come. The aim is to protect the health of the population in Switzerland and minimise the impact of the outbreak and spread of the coronavirus as far as possible.

COVID-19 management: Strategic bases of the Swiss Conference of the Cantonal Ministers of Public Health (GDK) and the FDHA-FOPH (in  [German](#) (PDF, 768 kB, 22.10.2020) and  [French](#) (PDF, 779 kB, 22.10.2020))

## Monitoring and interim reports

On the [Monitoring](#) page you will find reports on the population's mobility behaviour, the monitoring of precautionary measures, the economic situation and compliance monitoring.

## Interim report regarding the new coronavirus in Switzerland and in the Principality of Liechtenstein

The report sets out the general epidemiological situation and the impact of the measures taken by the government with regard to the new coronavirus. It is being released to coincide with the first phase of measures being eased.

COVID-19: Epidemiological interim report, dated 27 April 2020, available in  [German](#) (PDF, 1 MB, 07.05.2020);  [French](#) (PDF, 1 MB, 07.05.2020) or  [Italian](#) (PDF, 1 MB, 07.05.2020)

## Search for antibodies

How many people in Switzerland have already had the new coronavirus? Does having the infection and recovering from it mean you are then immune? A national study by the Swiss School of Public Health (SSPH+), a network comprising 12 Swiss universities, has launched a national study to find the answers to these questions.

It is based on a proposal by Professor Milo Puhan, Head of the Institute of Epidemiology at the University of Zurich. In the course of the study, up to October 2020, around 25,000 members of the general public and people in specific professional groups were tested and examined.

We are providing funding and expertise for this study.

## Scientific advisory body

The Swiss National COVID-19 Science Task Force (SN-STF) serves as a scientific advisory body to the federal government. Its members are researchers from across the entire university landscape. The SN-STF contributes to efforts to manage the coronavirus pandemic by making its scientific and research expertise available to the political authorities responsible.

The task force is headed by Professor Martin Ackermann (ETH Zurich and Eawag) together with a [steering committee](#)  comprising Professor Manuel Battegay (University of Basel), Professor Monika Bütler (University of St. Gallen) and Professor Samia Hurst (University of Geneva).

The SN-STF has been mandated by the Federal Department of Home Affairs (FDHA) and the FOPH.

Further information may be found on the [website of the Swiss National COVID-19 Science Task Force](#) .

Press conference, 20 January 2021, 2pm

## Further information

### Monitoring

Current reports on the population's mobility behaviour, implementation of the precautionary measures and the economic situation.
