Current status

The World Health Organisation (WHO) has announced that COVID-19 is a pandemic.

Currently, Australia does not have widespread community transmission of COVID-19. Find out how we are managing the outbreak to slow the spread.

In Australia

As at 6am on 24 March 2020, there have been **1,823 confirmed cases** of COVID-19 in Australia. There have been 344 new cases since 6am yesterday.

Of the 1,823 confirmed cases in Australia, 7 have died from COVID-19. More than 148,000 tests have been conducted across Australia.

| Location	Confirmed cases*
Australian Capital Territory	32
New South Wales	818
Northern Territory	4
Queensland	319
South Australia	134
Tasmania	21
Victoria	355
Western Australia	140
Total**	**1,823**

*Note that under National Notifiable Diseases Surveillance System reporting requirements, cases are reported based on their Australian jurisdiction of residence rather than where they were detected. For example, a case reported previously in the NT in a NSW resident is counted in the national figures as a NSW case.

**Includes Diamond Princess repatriation cases: Qld (3), SA (1), Vic (4), WA (2, including 1 death)

Overview of cases

Data used in the overview are based on confirmed cases reported from jurisdictions to the National Notifiable Disease Surveillance System (NNDSS) at 11.59pm 22 March 2020.
This graph shows the number of confirmed cases by notification date. Interpret the most recently reported new cases shown in the graph with caution as there can be delays in reporting.
