Current status

The World Health Organisation (WHO) has announced that COVID-19 is a pandemic.

Currently, Australia does not have widespread community transmission of COVID-19. Find out how we are managing the outbreak to slow the spread.

In Australia

As at 6:30am on 28 March 2020, there have been 3,378 confirmed cases of COVID-19 in Australia. There have been 212 new cases since 3:00pm yesterday.

Of the 3,378 confirmed cases in Australia, 13 have died from COVID-19. More than 196,000 tests have been conducted across Australia.

| Location	Confirmed cases*
Australian Capital Territory	62
New South Wales	1,617
Northern Territory	12
Queensland	555
South Australia	257
Tasmania	46
Victoria	574
Western Australia	255
Total**	**3,378**

* Note that under National Notifiable Diseases Surveillance System reporting requirements, cases are reported based on their Australian jurisdiction of residence rather than where they were detected. For example, a case reported previously in the NT in a NSW resident is counted in the national figures as a NSW case.

** Includes Diamond Princess repatriation cases: Qld (3), SA (1), Vic (4), WA (2, including 1 death)

Overview of cases

Data used in the overview are based on confirmed cases reported from jurisdictions to the National Notifiable Disease Surveillance System (NNDSS) at 11.59pm 26 March 2020.
This graph shows the number of confirmed cases by notification date. Interpret the most recently reported new cases shown in the graph with caution as there can be delays in reporting.

Further information regarding the epidemiology of cases in Australia is provided in the weekly epidemiology reports.

Tracing contact with confirmed cases from flights

States and territories are publishing details of flights where we now know that confirmed cases were on board.

You can check these lists to see whether you may have been in contact with a confirmed case.

See our advice for travellers page for more details.

Across the world

> Across the world there have been more than **549,658 confirmed cases** of COVID-19 and more than **25,644 deaths**.

Find out how COVID-19 is affecting other countries on the World Health Organisation (WHO) website. View the:

- WHO daily situation reports
- WHO COVID-19 dashboard

If you're planning to go overseas, keep up to date with the latest advice for travellers.

How we are managing the outbreak

The Prime Minister has activated the Emergency Response Plan for Novel Coronavirus (COVID-19).

To find out how the Australian Government is managing COVID-19, go to Government response to the outbreak.
