Source	Number of cases
Overseas acquired	158
Epi link (contact of confirmed case)	69
Under investigation	74
Unknown	52
<b>Total</b>	<b>353</b>

### Confirmed cases by local health district (LHD), across NSW

This map shows confirmed COVID-19 cases only (based on location of usual residence). Cases without a NSW residential address are not shown. The case definition of a confirmed case is a person who tests positive to a validated specific SARS-CoV-2 nucleic acid test or has the virus identified by electron microscopy or viral culture, at a reference laboratory.

### Confirmed cases by local health district (LHD), across Sydney Metropolitan region

This map shows confirmed COVID-19 cases only (based on location of usual residence). Cases without a NSW residential address are not shown. The case definition of a confirmed case is a person who tests positive to a validated specific SARS-CoV-2 nucleic acid test or has the virus identified by electron microscopy or viral culture, at a reference laboratory.

## Airport screening

Since 2 February 2020, NSW Health has been assisting the Australian Government in assessing passengers who arrive at Sydney International Airport from countries with high levels of COVID-19 community transmission. Up to 6pm 19 March 2020, a total of 28,517 passenger arrivals have been screened for possible symptoms of COVID-19. This includes 302 passengers screened on 19 March.

A total of 173 people have been transferred to hospital for further evaluation and COVID-19 testing where clinically indicated. This includes 5 people who arrived on 19 March.
