# Coronavirus (COVID-19) daily update

[Print](#)  [Share](#) 

This Chief Health Officer update is intended to provide clinicians and the Victorian public with information about the number of confirmed cases of coronavirus (COVID-19) in Victoria as well as relevant public health response activities in Victoria. Chief Health Officer Alerts will continue to be issued when there are changes to the public health advice related to coronavirus (COVID-19).

**26/07/2020**

## What's new?

- As of 26 July 2020, the total number of coronavirus (COVID-19) cases in Victoria is 8,181 with 459 new cases diagnosed since yesterday.
- Of the new cases, 82 are linked to outbreaks or complex cases and 377 are under investigation.
- There are 1,253 cases that may indicate community transmission, an increase of 48 since yesterday's report.
- 228 people are in hospital, including 42 patients in intensive care.
- There were sadly 10 new deaths reported since yesterday. To date, 71 people have died from coronavirus (COVID-19) in Victoria.
- There are 4,233 cases currently active in Victoria. 3,680 people have recovered.
- More than 1,500,500 test results have been processed by the department since 1 January 2020.
- Further details can be found in today's [coronavirus \(COVID-19\) media release](#).
- Up-to-date [epidemiological data is available on our website](#).
- The Department of Health and Human Services will be distributing 2.1 million masks to eligible

Victorians. General practices can place orders for these masks. More information is available on the [reusable face masks page](#).

## Stay at Home directions

- The State of Emergency has been extended until 11:59pm on 16 August 2020, allowing for the enforcement of the Stay at Home (Restricted Areas) Direction and other vital public health directions from the Chief Health Officer.
- Stay at Home (Restricted Areas) Directions are in force across metropolitan Melbourne and Mitchell Shire.
- People who live in these areas are only allowed to go out for four reasons: shopping for food and supplies, health care and caregiving, outdoor exercise, and study or work – if unable to work or study from home.
- From 11:59pm on Wednesday 22 July 2020, people who live in metropolitan Melbourne and Mitchell Shire are required to wear a face covering when leaving home, unless a lawful exception applies. A face covering can be either a face mask or a cloth mask and needs to cover both the nose and mouth. [More information on face coverings](#) is available on our website.

## Current advice to clinicians

- Practitioners should test any patients who meet the clinical criteria below

Fever OR chills in the absence of an alternative diagnosis that explains the clinical presentation\*

OR

Acute respiratory infection (e.g. cough, sore throat, shortness of breath, runny nose, anosmia or loss of smell or loss of taste)

**Note:** In addition, testing is recommended for people with new onset of other clinical symptoms consistent with coronavirus (COVID-19)\*\* AND who are close contacts of a confirmed case of coronavirus (COVID-19); who have returned from overseas in the past 14 days; or who are healthcare or aged care workers.

*\*Clinical discretion applies including consideration of the potential for co-infection (e.g. concurrent infection with SARS-CoV-2 and influenza)G*

*\*\*headache, myalgia, stuffy nose, nausea, vomiting, diarrhoea*

- If referring your patients for coronavirus (COVID-19) testing, a list of testing locations can be found on the [Getting tested for coronavirus page](#).
- Any coronavirus (COVID-19) test reported by a laboratory as having detected SARS-CoV-2 on PCR will be treated as positive for the purposes of public health actions, regardless of repeat testing of the sample. It is not appropriate to advise a patient that a test is a false positive.
- If you're the doctor of a confirmed case, check in regularly on your patient – if your patient's clinical condition deteriorates, consider tertiary referral as your next step.

# Key messages for the community

- Stay home and get tested if you have symptoms of coronavirus (COVID-19) no matter how mild: including fever, chills, cough, sore throat, shortness of breath, runny nose, loss of sense of smell or taste. Go home straight after your test and self-isolate while you wait for the results. [Go to the DHHS testing map for locations.](#)
- **Face coverings in Melbourne and Mitchell Shire** - People living in Melbourne and Mitchell Shire are required to wear a face covering from 11:59pm on Wednesday 22 July when leaving their home, unless a lawful exception applies. The fine for not wearing a face covering will be \$200.
- **Face coverings in regional Victoria** - Face coverings in regional Victoria continue to be recommended in situations where maintaining 1.5 metres distance is not possible – however regional Victorians will have to put on face covering when visiting metropolitan Melbourne or Mitchell Shire for one of the permitted reasons.
- This is a difficult and uncertain time for many Victorians, and support is vital and available. For more information about managing stress and support options, call the Coronavirus Mental Wellbeing Support Services on 1800 512 348
- A **one-off \$300 payment** to support Victorian workers, including parents and guardians, who are required to self-isolate while they wait for the results is available.
- The one-off \$1,500 Worker Support Payment continues to be available to support Victorian workers who test positive or a close contact tests positive for coronavirus (COVID-19) and need to self-isolate but are unable to work during their isolation, have no income during this period, and are not entitled to any paid sick leave, special pandemic leave or other income support.
- For more information about the worker support payment [our website](#).
