# Latest case counts on novel coronavirus

#### March 16, 2020

A new coronavirus is causing a respiratory infection known as COVID-19 around the world and in B.C. The province is working to break the chains of transmission.

## Confirmed COVID-19 cases

Case counts are based on available information and are subject to change.

#### Global

For the latest global case counts, please visit the World Health Organization (WHO) Novel coronavirus (COVID-19) map.

## Canada

For the latest Canadian updates, visit the Public Health Agency of Canada website.

## British Columbia

- 103 confirmed cases including:
  - Five individuals who have recovered, as indicated by the resolution of symptoms, followed by two successive negative test results 24 hours apart.
  - Four individuals who have died.
- 6,326 individuals tested as of March 13, 2020.

#### Information for the public and patients.

## Information for health professionals.

Anyone concerned that they may have been exposed to, or are experiencing symptoms of the novel coronavirus, should contact their primary care provider, local public health office, or **call 8-1-1**.

Public Health Agency of Canada has set up a 2019 novel coronavirus telephone information line at: 1-833-784-4397.
