The dashboard is updated Monday to Friday at 5 p.m.

By accessing and using this dashboard, you agree to be bound by the [terms of use, disclaimer and limitation of liability](#).

Update - As of June 4, 2020, B.C. is reporting [epi-linked cases](#), meaning people who were never tested but were presumed to have COVID-19 because they developed symptoms and were close contacts of a laboratory confirmed case. Epi-linked cases identified since May 19, 2020, are now included in the case total, but are not considered new cases unless they were reported in the last 24 hours.
