[COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

Contact Health Links-Info Santé at 204-788-8200 or 1-888-315-9257 (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: March 18, 2020

Public health investigations are continuing on the seven additional positive cases identified yesterday. It appears that six of the seven cases are related to travel. Further information about travel is pending for the seventh case.

Public health is recommending that support services to seniors programs focused on providing congregate meals be suspended. At long-term care facilities and for assisted living, congregate meals follow public health recommendations on social distancing. Individuals who have returned from international travel in the past 14 days have been instructed to self-isolate or self-monitor. Those who are suffering from cold- or flu-like symptoms should not participate.

Manitobans are asked to call Health Links-Info Santé, who will be able to assess whether testing for COVID-19 is needed and can provide a referral. The Health Links-Info Santé number is 204-788-8200 and 1-888-315-9257 (toll-free).
