[COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: March 19, 2020

Public health officials advise the number of lab-confirmed positive and presumptive positive cases in Manitoba remains at 17 at this time.

All Manitoba health-care facilities will soon begin implementing enhanced precautions and protocols which will involve additional visitor restrictions. Exceptions for compassionate reasons will continue to be made on a case-by-case basis.

Twenty-seven additional ventilators have arrived and will be put into operation at health-care facilities throughout the province. This will bring Manitoba's overall supply to 266. It's anticipated an additional 16 ventilators, also ordered last week, will be delivered in the coming weeks.

Agencies that offer day programs through Community Living disABILITY Services for adults with intellectual disabilities have been asked to limit this service as part of the effort to support social distancing efforts and reduce the potential spread of the virus.
