[COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

## Current Situation

**NEW** Last updated: March 20, 2020

Public health officials advise the number of lab-confirmed positive and presumptive positive cases in Manitoba remains at 17 at this time.

Surgery programs across Manitoba will begin suspending elective (non-urgent) surgical procedures starting Monday. This will help ensure staff, beds, equipment and supplies remain available and flexible for COVID-19 response.

Hospitals across the province will continue with scheduled surgeries for cancer, trauma and other surgeries that can't be delayed. Time-sensitive orthopedic, obstetrical, gynecology and ophthalmology surgeries will also continue. Surgery slates will be examined to ensure proper patient care continues and any affected patients will be contacted about changes to their care.

Prescription renewals will now be limited to a 30-day supply. In times where supplies of some medication may be limited, this strategy is designed to ensure people do not stockpile medicine, and all patients have access to their medication.

For the next four weeks, CancerCare Manitoba (CCMB) will consolidate two cancer clinics to offer services out of one location. Cancer clinic services currently offered at Seven Oaks General Hospital will now be delivered out of the Victoria General Hospital Cancer Clinic and affected patients will be contacted by their clinical team. Visits that can be completed virtually or by phone will continue to be managed in that way and patients requiring treatment will be seen at CancerCare Manitoba's various cancer clinics.

As demand increases, additional resources continue to be added to Health Links-Info Santé. More phone lines have been added and additional staff have been deployed to assist with the higher call volume. Work is nearly complete and an interactive voice recording (IVR) will launch soon to pre-screen callers before they speak to a clinician.

A new community testing site opened in Steinbach this morning. Located at 365 Reimer Ave., the site will operate as a drive-thru, with daily hours of 9 a.m. to 3 p.m.. Other sites are located in Winnipeg, Brandon, Selkirk, Thompson, The Pas and Flin Flon. **These locations are not walk-in clinics. Patients must receive a referral prior to arriving at these sites.**

More locations are expected to open in the coming days, including a new drive-thru location in south Winnipeg.
