[COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW *Last updated: March 21, 2020*

Public health officials advise an additional case of COVID-19 has been identified, bringing the number of lab-confirmed positive and presumptive positive cases in Manitoba to 18 at this time.

Case 18 is a woman in her 50s who lives in Winnipeg. At this time, the public health investigation indicates the case is related to travel. Information about flights where a person with a lab-confirmed case of COVID-19 had symptoms at the time of travel are updated on the [Flights with Confirmed Cases](#) page as information becomes available.

More locations are expected to open in the coming days, including a new drive-thru location in south Winnipeg.

COVID-19 (coronavirus) update

Testing in Manitoba

NEW Last updated: March 21, 2020

As of March 19, 3,801 tests for COVID-19 have been completed.

Total Number of Confirmed and Presumptive Positive Novel Coronavirus (COVID-19) Cases by Health Region (of residence)::

	Manitoba	Interlake-Eastern	Northern	Prairie Mountain	Southern Health	Winnipeg	Unknown
Confirmed Positive *	17	1	0	0	2	14	0
Presumptive Positive **	1	0	0	0	0	1	0
Totals	18	1	0	0	2	15	0

- * A confirmed positive case has tested positive at both Cadham Provincial Laboratory and the National Microbiology Laboratory.
- ** A presumptive positive case has tested positive at Cadham Provincial Laboratory and is awaiting confirmatory testing results from the National Microbiology Laboratory.

If you have a positive test result, public health officials will call you directly. That is the start of the public health investigation process. In addition, if these public health investigations identify you as a possible close contact, they will call you and provide advice on how to self-monitor for symptoms and self-isolate.

If your test result is negative, it may take longer for you to be advised of your test results. If you have been exposed to COVID-19 through travel or close contact with a case, ensure you self-isolate for 14 days after symptoms develop. If you haven't been exposed to a case or travel, stay home until all your symptoms are gone.

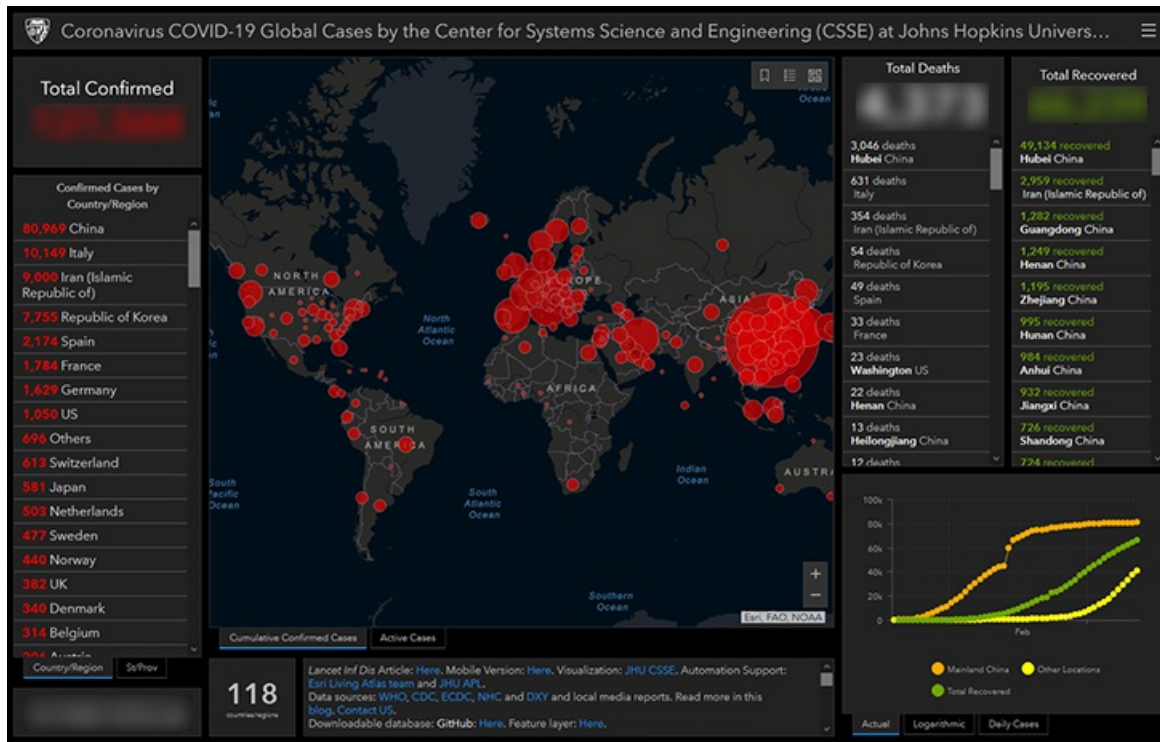

Canadian Situation

As of March 21, 2020 (8:00 am), 1,048 confirmed cases of COVID-19 have been confirmed in Canada. Cases have been reported in Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario, Prince Edward Island, Quebec, Saskatchewan and Newfoundland & Labrador. Probable cases have also been reported in New Brunswick, Nova Scotia, Newfoundland & Labrador and Saskatchewan. [Public Health Agency of Canada's COVID-19: Outbreak update](#) website.

Worldwide Reported Cases
