[COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

The online screening tool is now available in an interactive voice response (IVR) format. CALL 1-877-308-9038

It is not a replacement for Health Links-Info Sante. It is specifically for Manitobans who prefer to complete the screening tool by phone rather than online.

The tool asks callers standard screening questions for COVID-19. If needed, it directs those who may require a conversation with a health care professional to Health Links-Info Santé. People who want to self-screen can call 1-877-308-9038.

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: March 25, 2020

Public health officials advise 14 additional probable cases of COVID-19 have been identified, bringing the total number of lab-confirmed positive and probable positive cases in Manitoba to 35 at this time. Public health investigations are underway to determine additional details and to confirm the possible exposure of these cases.

Public health officials are strongly advising all Manitobans, including health-care providers, to

cancel or postpone any non-essential travel. This includes international travel and travel within Canada. There should be no recreational, tourist or non-essential personal travel.

A new community testing drive-thru site officially opened today in Winkler, at the Winkler Centennial Arena (600 Park St.). Hours are daily from 9 a.m. to 3 p.m. There are now 12 community testing sites including four drive-thru locations.

Testing in Manitoba

NEW Last updated: March 25, 2020

As of March 23, 4,520 tests for COVID-19 have been completed.

Total Number of Confirmed and Probable Positive Novel Coronavirus	Manitoba
Confirmed Positive *	11
Probable Positive **	24
Totals	35

- * A confirmed positive case has tested positive at both Cadham Provincial Laboratory and the National Microbiology Laboratory.
- ** A probable positive case has tested positive at Cadham Provincial Laboratory and is awaiting confirmatory testing results from the National Microbiology Laboratory.

If you have a positive test result, public health officials will call you directly. That is the start of the public health investigation process. In addition, if these public health investigations identify you as a possible close contact, they will call you and provide advice on how to self-monitor for symptoms and self-isolate.

If your test result is negative, it may take longer for you to be advised of your test results. If you have been exposed to COVID-19 through travel or close contact with a case, ensure you self-isolate for 14 days after symptoms develop. If you haven't been exposed to a case or travel, stay home until all your symptoms are gone.

Canadian Situation

NEW Last updated: March 25, 2020

As of March 24, 2020 (5:00 pm), 1,959 cases of COVID-19 have been confirmed in Canada. Cases have been reported in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland & Labrador, Northwest Territories, Nova Scotia, Ontario, Prince Edward Island, Quebec, Saskatchewan and Yukon. Probable cases have also been reported in Alberta, British Columbia, Ontario and Quebec [Public Health Agency of Canada's COVID-19: Outbreak update website](#).
