## [COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

The online screening tool is now available in an interactive voice response (IVR) format. CALL 1-877-308-9038

It is not a replacement for Health Links-Info Sante. It is specifically for Manitobans who prefer to complete the screening tool by phone rather than online.

The tool asks callers standard screening questions for COVID-19. If needed, it directs those who may require a conversation with a health care professional to Health Links-Info Santé. People who want to self-screen can call 1-877-308-9038.

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

### Current Situation

**NEW** Last updated: March 26, 2020

Public health officials advise one additional probable case of COVID-19 has been identified, bringing the total number of lab-confirmed positive and probable positive cases in Manitoba to 36 at this time.

Public health investigations are underway to determine additional details and to confirm the possible exposure of this case. Information about flights where a person with a lab-confirmed case

of COVID-19 had symptoms at the time of travel is updated on the [Flights with Confirmed Cases](#) as information becomes available.

Additional community test sites will officially open Friday March 27 in Eriksdale (Eriksdale Wellness Centre, 35 Railway Ave.) 10 a.m. to 3 p.m. and Pine Falls (École Powerview School, 33 Vincent St.) 9 a.m. to 4 p.m. daily. The community testing site in The Pas has been relocated to the Wescana Inn (439 Fischer Avenue) and will continue to be open Monday to Friday, from 9 a.m. to 4 p.m.

## Testing in Manitoba

**NEW** Last updated: March 26, 2020

As of March 25, 5,606 tests for COVID-19 have been completed.

Total Number of Confirmed and Probable Positive Novel Coronavirus	Manitoba
Confirmed Positive *	11
Probable Positive **	25
<b>Totals</b>	36

- \* A confirmed positive case has tested positive at both Cadham Provincial Laboratory and the National Microbiology Laboratory.
- \*\* A probable positive case has tested positive at Cadham Provincial Laboratory and is awaiting confirmatory testing results from the National Microbiology Laboratory.

If you have a positive test result, public health officials will call you directly. That is the start of the public health investigation process. In addition, if these public health investigations identify you as a possible close contact, they will call you and provide advice on how to self-monitor for symptoms and self-isolate.

If your test result is negative, it may take longer for you to be advised of your test results. If you have been exposed to COVID-19 through travel or close contact with a case, ensure you self-isolate for 14 days after symptoms develop. If you haven't been exposed to a case or travel, stay home until all your symptoms are gone.

## Canadian Situation

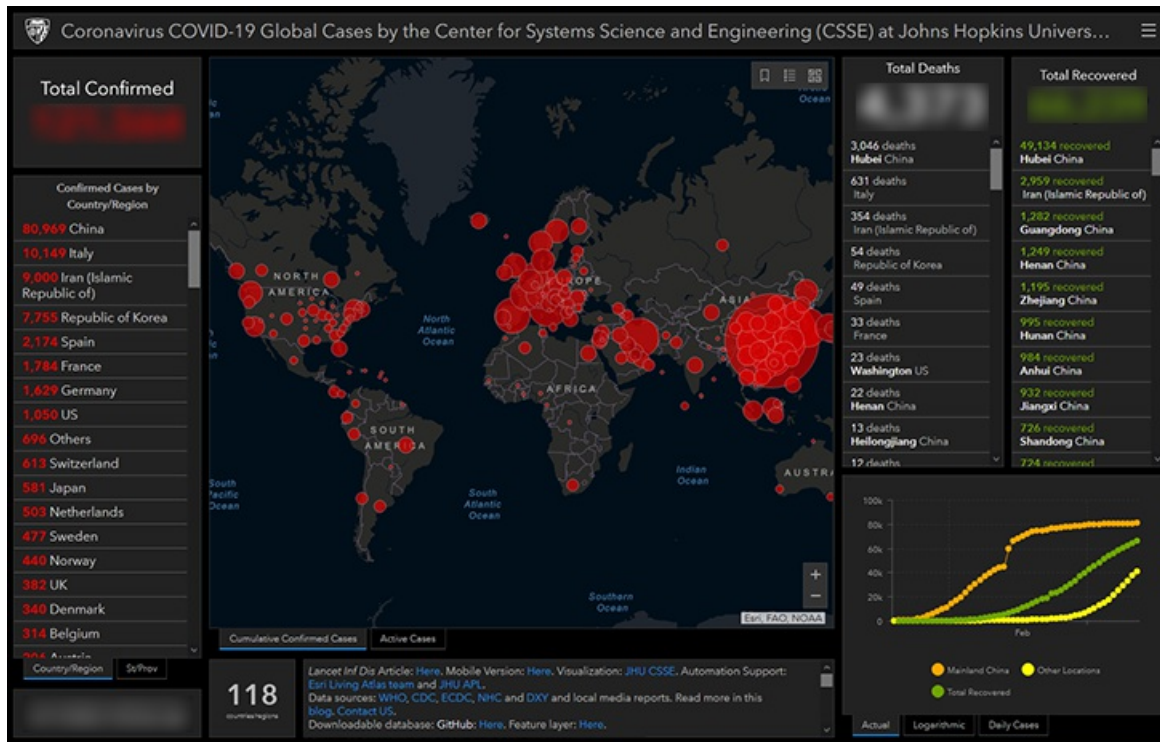

**NEW** Last updated: March 26, 2020

As of March 25, 2020 (5:00 pm), 3,385 cases and 35 deaths associated with COVID-19 have been confirmed in Canada. Cases have been reported in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland & Labrador, Northwest Territories, Nova Scotia, Ontario, Prince Edward Island, Quebec, Saskatchewan and Yukon. Probable cases have also been reported in Manitoba. Deaths associated with COVID-19 have been reported in Alberta, British Columbia, Ontario and Quebec.
