## NOVEL CORONAVIRUS

### [COVID-19 Screening Tool - Experiencing symptoms? Take a self-assessment](#)

*The online screening tool is now available in an interactive voice response (IVR) format. CALL 1-877-308-9038*

*It is not a replacement for Health Links-Info Sante. It is specifically for Manitobans who prefer to complete the screening tool by phone rather than online.*

*The tool asks callers standard screening questions for COVID-19. If needed, it directs those who may require a conversation with a health care professional to Health Links-Info Santé. People who want to self-screen can call 1-877-308-9038.*

**Contact Health Links-Info Santé at 204-788-8200 or 1-888-315-9257 (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.**

**Do not call 911 unless it is an emergency.**

#### **Current Situation**

**NEW** Last updated: March 31, 2020

**Public health officials advise seven additional cases of COVID-19 have been identified as of 9:30 a.m., bringing the total number of lab-confirmed positive and probable positive cases in Manitoba to 103 at this time.**

**The data also shows:**

- **Three individuals are currently hospitalized, including two in intensive care;**

- *Four individuals have recovered from COVID-19; and*
- *The total number of deaths reported in Manitoba remains at one*

*Public health officials have also confirmed that a staff member at Selkirk Regional Health Centre has tested positive for COVID-19. This individual worked in the health centre's emergency department and medicine ward from March 19 to 23. Public health, occupational health and infection prevention and control staff are working together to investigate this case and follow up with all identified close staff and patient contacts.*

*Under The Public Health Act, new public health orders take effect April 1. Additional details are available at: [State of Emergency page](#).*

### Cases and Risk of COVID-19 in Manitoba

**NEW** Last updated: March 31, 2020 - 1:00 p.m.

As of March 31, 8,914 tests for COVID-19 have been completed.

#### Summary of Persons with COVID-19 in Manitoba

Regions	Total Cases	Confirmed Positive *	Probable Positive **	Deaths
Interlake-Eastern	3	3	0	0
Northern	1	1	0	0
Prairie Mountain	9	9	0	0
Southern	6	5	1	0
Winnipeg	84	73	11	0
Totals	103	91	12	1

- \* A confirmed positive case has tested positive at both Cadham Provincial Laboratory and the National Microbiology Laboratory.
- \*\* A probable positive case has tested positive at Cadham Provincial Laboratory and is awaiting confirmatory testing results from the National Microbiology Laboratory.

If you have a positive test result, public health officials will call you directly. That is the start of the public health investigation process. In addition, if these public health investigations identify you as a possible close contact, they will call you and provide advice on how to self-monitor for symptoms and self-isolate.

If your test result is negative, it may take longer for you to be advised of your test results. If you have been exposed to COVID-19 through travel or close contact with a case, ensure you self-isolate for 14 days after symptoms develop. If you haven't been exposed to a case or travel, stay home until all your symptoms are gone.

## COVID-19 case counts by age/sex

### Canadian Situation

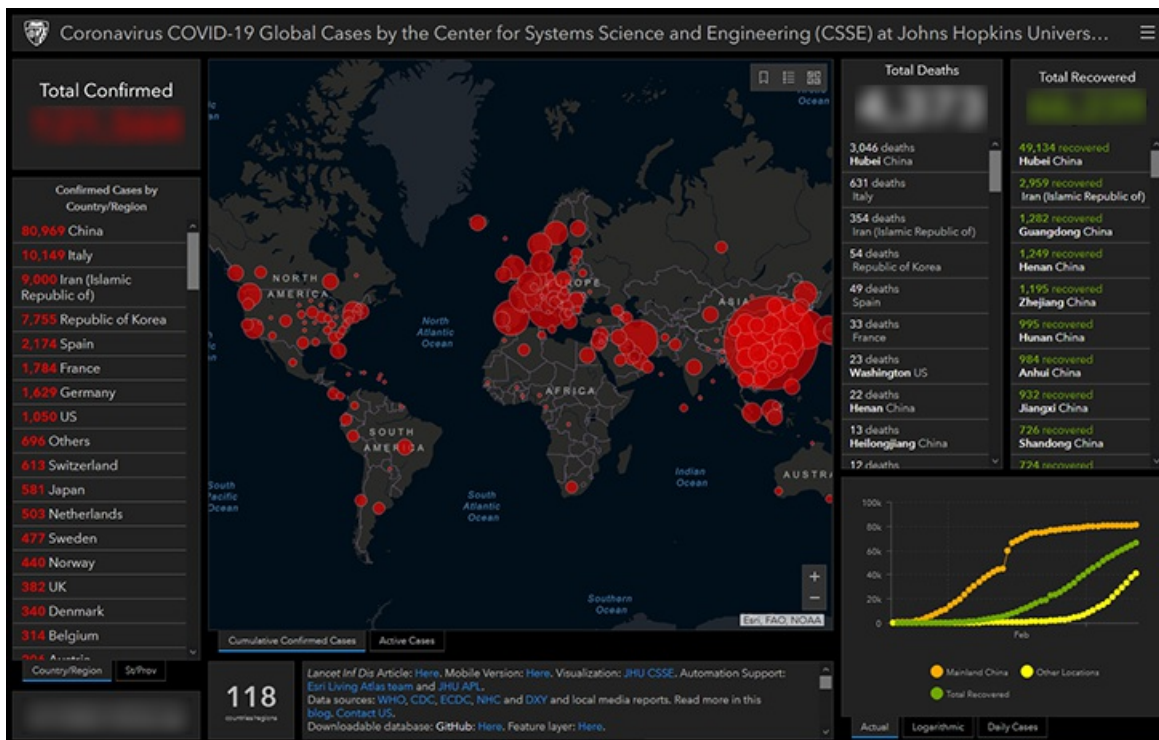

**NEW** Last updated: March 31, 2020

As of March 31, 2020 (10:00 am), 7,695 cases, 13 probable cases and 89 deaths associated with COVID-19 have been confirmed in Canada. Cases have been reported in all provinces and territories across Canada, with the exception of Nunavut. Probable cases have also been reported in Manitoba. Deaths associated with COVID-19 have been reported in Alberta, British Columbia, Ontario, Manitoba and Quebec. [Public Health Agency of Canada's COVID-19: Outbreak update website.](#)

### Worldwide Reported Cases
