Current Situation

NEW *Last updated: April 18, 2020*

Public health officials advise three new cases of COVID-19 were identified as of 9:30 a.m. today, bringing the total number of lab-confirmed positive and probable positive cases in Manitoba to 253.

The data also shows:

- seven individuals are currently hospitalized, which includes four individuals in intensive care;
- 108 active cases and 140 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at five.

Cadham Provincial Laboratory performed 340 tests Friday. A total of 19,193 tests have been performed since early February.

COVID-19 (Coronavirus) update

Cases and Risk of COVID-19 in Manitoba

NEW Last updated: April 18, 2020 - 1:00 p.m.

Summary of Persons with COVID-19 in Manitoba

Regions	Total Cases	Confirmed Positive *	Probable Positive **	Deaths
Interlake-Eastern	18	17	1	0
Northern	3	3	0	0
Prairie Mountain	13	13	0	0
Southern	28	23	5	0
Winnipeg	191	187	4	0
Totals	253	243	10	5

- * A confirmed positive case has tested positive at both Cadham Provincial Laboratory and the National Microbiology Laboratory.
- ** A probable positive case has tested positive at Cadham Provincial Laboratory and is awaiting confirmatory testing results from the National Microbiology Laboratory.

If you have a positive test result, public health officials will call you directly. That is the start of the public health investigation process. In addition, if these public health investigations identify you as a possible close contact, they will call you and provide advice on how to self-monitor for symptoms and self-isolate.

If your test result is negative, it may take longer for you to be advised of your test results. If you have been exposed to COVID-19 through travel or close contact with a case, ensure you self-isolate for 14 days after symptoms develop. If you haven't been exposed to a case or travel, stay home until all your symptoms have been gone for 24 hours. If you are a health care worker, contact Occupational Health to determine a date of return for work.

Canadian Situation

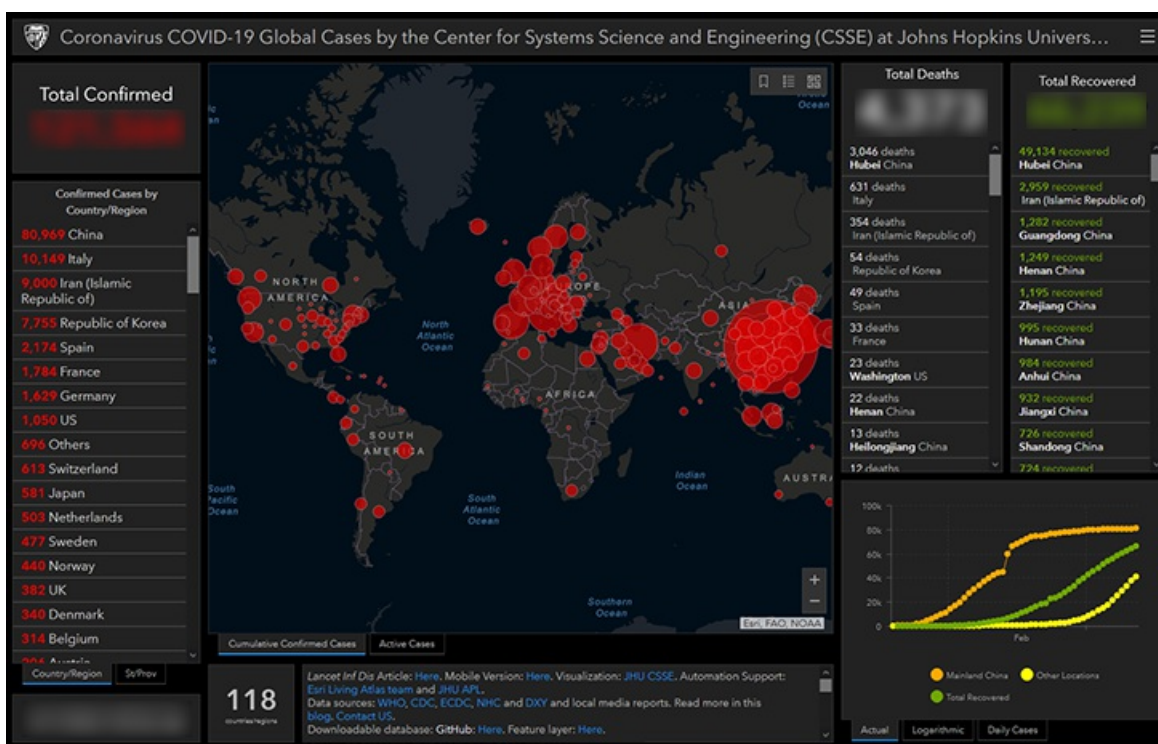

NEW Last updated: April 17, 2020

As of April 16, 2020 (10:00 am), 30,659 confirmed cases, 11 probable cases and 1,250 deaths associated with COVID-19 have been confirmed in Canada. Cases have been reported in all provinces and territories across Canada, with the exception of Nunavut. Probable cases have all been reported in Manitoba. Deaths associated with COVID-19 have been reported in Alberta, British Columbia, Ontario, Manitoba, Newfoundland and Labrador, Nova Scotia, Quebec and Saskatchewan.
