Current Situation

NEW Last updated: April 30, 2020

Public health officials advise two new cases of COVID-19 have been identified as of 9:30 a.m. today, bringing the total number of lab-confirmed positive and probable positive cases in Manitoba to 275.

The data also shows:

- five individuals are currently hospitalized, with no individuals in intensive care;
- 49 active cases and 220 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at six.

It is important to note that while some gradual lifting or restrictions has begun, significant work to limit the spread of COVID-19 must continue. Public health is also advising people to remain within or close to their home communities. The request to stay home as much as possible is still in place at this time. This includes limiting travel, even within Manitoba, to essential trips only. Visits to cottages are not recommended at this time. Services at smaller health centres could be strained if seasonal visitors become ill.

A new drive-thru community testing site will open Friday in Swan River, at the Manitoba Public

Insurance facility, 125-4th Ave. North. Hours of operation will be daily from 10:30 a.m. to 3 p.m. This is Manitoba's 16th community testing site and ninth drive-thru location.
