Current Situation

NEW Last updated: May 4, 2020

Public health officials advise no new cases of COVID-19 have been identified as of 9:30 a.m. today. The total number of lab-confirmed positive and probable positive cases in Manitoba remains at 281.

The data also shows:

- five individuals are currently hospitalized, with no individuals in intensive care;
- 37 active cases and 238 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at six.

All Manitobans returning to work are now eligible to access the temporary child-care system to find a location that meets their needs. Families can use the online tool at <https://eswchildcare.ca/> to view available spaces and then contact centres directly to finalize arrangements. Licensed centres are able to provide care for up to 16 children per centre. Larger centres with separate rooms and external entrances can accommodate up to 16 children per room. Home-based child-care providers can continue to provide care for up to eight children.

A secure portal that allows Manitobans who have been tested for COVID-19 to access their negative test results is now online. Starting today, people being tested for the virus in Manitoba will receive information about how to register to access their results at sharedhealthmb.ca/covid19/test-results. A Manitoba Health card is required.

Those without a Manitoba Health card or internet access can retrieve their results by calling toll-free 1-844-960-1984 between the hours of 9 a.m. and 5 p.m., seven days per week. As always, public health officials will directly notify Manitobans who have tested positive for COVID-19.
