Current Situation

NEW Last updated: May 17, 2020

Current Situation

Public health officials advise no new cases of COVID-19 have been identified as of 9:30 a.m. today. The total number of lab-confirmed positive and probable positive cases in Manitoba is 289.

The data also shows:

- two individuals are currently hospitalized, with one individual in intensive care;
- 25 active cases and 257 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at seven.

As of yesterday, an additional 762 laboratory tests were performed. This brings the total number of tests performed since early February to 34,715.

It is important to note that while some gradual lifting of restrictions has begun, significant work to limit the spread of COVID-19 must continue. If you travel for camping or to the cottage, you are reminded to take steps to [maintain social distancing](#). Manitobans are reminded that travel is not permitted from southern Manitoba to areas north of the 53rd parallel, including campgrounds. This is essentially anywhere north of the northern end of Lake Winnipeg.

Manitobans experiencing COVID-19 symptoms no longer require a referral from Health Links-Info Sante or their family physician before heading to a community site for COVID-19 testing.

Many community testing sites remain open as regularly scheduled on Sunday. For Victoria Day, the Sargent Tommy Prince Place testing site and assessment clinic and the Bison Drive drive-thru site in Winnipeg and testing locations in Winkler and Selkirk will be open. All other locations throughout the province will be closed on Monday and reopen on Tuesday. For up-to-date information on testing criteria and community screening sites, visit: manitoba.ca/covid19/locations.html.
