Current Situation

NEW Last updated: May 19, 2020

Current Situation

Public health officials advise no new cases of COVID-19 have been identified as of 9:30 a.m. today. The total number of lab-confirmed positive and probable positive cases in Manitoba is 290.

The data also shows:

- one individual is currently hospitalized, with no individuals in intensive care;
- 26 active cases and 257 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at seven.

Manitobans experiencing flu or cold-like symptoms no longer require a referral from Health Links-Info Sante or their family physician before heading to a community site for COVID-19 testing. Anyone with symptoms is still encouraged to use the online screening tool to determine whether they meet the necessary criteria to be tested.

A new community testing site in Winnipeg opened this morning at Thunderbird House, 715 Main St. The site is open daily from 9 a.m. to 5 p.m. This is Winnipeg's fifth community testing site and Manitoba's 17th location.
