Current Situation

NEW Last updated: May 26, 2020

Current Situation

Public health officials advise no new cases of COVID-19 have been identified as of 9:30 a.m. today. The total number of lab-confirmed positive and probable positive cases in Manitoba remains at 292.

The data also shows:

- no individuals in hospital or intensive care;
- 16 active cases and 269 individuals who have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at seven.

The draft plan for restoring services in Phase Two released May 21 builds on measures from *Restoring Safe Services: Manitoba's Pandemic and Economic Roadmap for Recovery*, which set out an evidence-based plan to ease public health measures that had escalated since mid-January. As of May 22, gathering size limits were increased to 25 people indoor and 50 outdoor, while professional sports teams were allowed to return to their training facilities, as long as precautions were taken

and the public is not allowed into those facilities.

Detailed information on the draft plan for Phase Two of service restoration can be found at: www.manitoba.ca/covid19/restoring/index.html.

Manitobans can provide their feedback on the draft plan by visiting engagemb.ca.

Updated enforcement statistics are now posted online and updated weekly. For more information go to Cross-Departmental Reports at manitoba.ca/openmb/infomb/departments.html
