Current Situation

NEW Last updated: July 3, 2020

Public health officials advise no new cases of COVID-19 were identified as of 9:30 a.m. today. The total number of lab-confirmed positive and probable positive cases in Manitoba remains at 325.

The data also shows:

- no individuals are in hospital or intensive care;
- 16 active cases and 302 individuals have recovered from COVID-19; and
- the number of deaths due to COVID-19 remains at seven.

An additional 641 laboratory tests were performed yesterday, bringing the total number of tests performed since early February to 64,968.

Updated case information is now available about travel by an individual previously announced as a positive COVID-19 case on June 29. The individual was a passenger on Air Canada flight AC 295 from Winnipeg to Vancouver on June 19, not on June 18 as previously reported. Affected rows on that flight are rows 19 to 25.

In addition, people in rows 31 to 37 on flight AC 122 from Vancouver to Toronto on June 21 are considered a close contact and are at risk of exposure.

Individuals in affected rows are advised to self-isolate for 14 days following the flight and monitor for symptoms. Passengers on this flight, but not in the affected seats, should self-monitor for symptoms. If symptoms develop, people should self-isolate and get tested.

While public health assesses the risk to others as low, it is sharing this information to ensure people are aware and know to seek testing if symptoms develop. Visit <http://www.manitoba.ca/covid19/> to use the online screening tool, or call Health Links - Info Santé at 204-788-8200 or toll-free at 1-888-315-9257 for health guidance on how to seek testing.

Follow www.twitter.com/MBGov or www.facebook.com/ManitobaGovernment on the weekend for updated case numbers. Complete data from the weekend will be updated on Monday, July 6 at 1 p.m. at www.manitoba.ca/COVID19 and in the media bulletin.
