Current Situation

NEW Last updated: July 30, 2020

The current five-day COVID-19 test positivity rate is 0.40 per cent and two new cases of the virus have been identified as of 9:30 a.m. today. This brings the total number of lab-confirmed positive and probable positive cases in Manitoba to 409.

The data shows there were:

• two new cases in the Prairie Mountain Health region.

Case investigations are ongoing. When completed, additional information will be provided as needed to inform people of any public health risks.

The data also shows:

- six current hospitalizations, with four individuals in intensive care,
- 76 active cases and 325 individuals have recovered from COVID-19, and
- the number of deaths due to COVID-19 is eight.

An additional 1,179 laboratory tests were completed on Wednesday, bringing the total number of tests completed since early February to 87,548.
