#RESTART^{MB} Pandemic Response System

Provincial Response Level: CAUTION

COVID-19 is still a threat across Manitoba, however transmission levels are low. The Chief Provincial Public Health Officer has set the response level to yellow.

COVID-19 Screening Tool - Experiencing symptoms?

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: September 10, 2020

Public health officials advise the current five-day COVID-19 test positivity rate is 1.2 per cent and 15 new cases of the virus have been identified as of 9:30 a.m. today. However, a case was removed as

it was determined to be from out of province and a second case was removed due to duplication. This brings the total net new cases today to 13 and number of lab-confirmed cases in Manitoba to 1,378.

The data shows:

- Two cases in Interlake-Eastern Health region;
- Two cases in the Prairie Mountain Health region;
- Two case in the Southern Health-Santé Sud health region; and
- Nine cases in the Winnipeg health region.

The data also shows:

- 360 active cases and 1002 individuals have recovered from COVID-19;
- there are 11 people in hospital and three people in intensive care; and
- the number of deaths due to COVID-19 is 16.

Preliminary investigations indicate that several of today's cases are close contacts of known cases. Case investigations continue and if a public health risk is identified, the public will be notified.

Confirmed laboratory testing numbers show 1,173 tests were completed on Wednesday, bringing the total number of lab tests completed since early February to 150,350.

Wearing a non-medical mask became mandatory for children aged nine and older attending child care facilities, including home-based child care, as of Sept. 8. Child care providers are also required to wear masks. More information and guidance for the early learning and child care sector is available at www.gov.mb.ca/fs/covid-circulars.html.

Public health officials are advising of two potential exposure to COVID-19 may have occurred.

- Sept 1 to 3 at Lilac Resort (Trans-Canada Hwy, Ste. Anne); and
- Sept. 5, Air Canada flight AC 295 departing from Winnipeg to Vancouver (rows 19-25).

The risk is low and times of exposures are listed online here manitoba.ca/covid19/updates/flights.html#event

Individuals in the affected seats on these flights are advised to self-isolate for 14 days following the flight and monitor for symptoms. Passengers on these flights, but not in the affected seats, should self-monitor for symptoms and self-isolate if they develop.

The Keystone Center Specimen Collection Site in Brandon will close permanently after Sept. 12. Those seeking testing are advised to visit the Brandon Town Center site. For all testing site locations visit <https://www.gov.mb.ca/covid19/updates/testing.html>
