Current Situation

NEW Last updated: September 25, 2020

The current five-day COVID-19 test positivity rate is 2.6 per cent and 54 new cases of the virus have been identified as of 9:30 a.m. today bringing the number of cases in Manitoba to 1,764.

However, a previously announced case from the Winnipeg health region was removed from the case totals pending further case investigation, bring the net new cases identified since yesterday to 53.

The data shows:

- two cases in the Prairie Mountain Health region;
- two cases in the Interlake-Eastern region;
- two cases in the Northern health region
- four cases in the Southern Health-Santé Sud; and
- 44 cases in the Winnipeg health region.

The data also shows:

- 487 active cases and 1,258 individuals have recovered from COVID-19;
- there are 13 people in hospital and six people in intensive care; and
- the number of deaths due to COVID-19 is 19.

Confirmed laboratory testing numbers show 1,607 tests were completed on Wednesday, and 2,354 tests were complete on Thursday, bringing the total number of lab tests completed since early February to 173,999. Case investigations continue and if a public health risk is identified, the public will be notified.

Manitoba's public health officials will be elevating the [#RestartMB Pandemic Response System](#) level for the Winnipeg Metropolitan Region to Restricted (orange) effective Sept. 28, with new measures being put in place help slow the spread of COVID-19.

This includes the:

- City of Winnipeg;
