Current Situation

NEW Last updated: September 28, 2020

The current five-day COVID-19 test positivity rate is 2.2 per cent and 39 new cases of the virus have been identified as of 9:30 a.m. today, bringing the number of cases in Manitoba to 1,919.

Public health officials are reporting an additional death related to COVID-19, a male in his 70s from the Prairie Mountain Health region. This brings the total number of deaths to 20.

The data shows:

- seven cases in the Interlake–Eastern health region;
- seven cases in the Northern health region;
- three cases in the Southern Health–Santé Sud; and
- 22 cases in the Winnipeg health region.

The data also shows:

- 618 active cases and 1,281 individuals have recovered from COVID-19;
- there are 13 people in hospital and seven people in intensive care; and
- the number of deaths due to COVID-19 is 20.

Confirmed laboratory testing numbers show 2,647 tests were completed on Friday, 2,196 tests were completed on Saturday and 1,596 tests were completed on Sunday, bringing the total number of lab tests completed since early February to 180,750. Case investigations continue and if a public health risk is identified, the public will be notified.

Manitoba's public health officials have elevated the #RestartMB Pandemic Response System level for the Winnipeg Metropolitan Region to Restricted (orange) effective Sept. 28, with new measures being put in place help slow the spread of COVID-19. This includes the City of Winnipeg and several communities and rural municipalities outside Winnipeg. Masks are mandatory in all indoor public places in these communities. All private and public gatherings are restricted to 10 people, both indoors and outdoors.
