Current Situation

NEW Last updated: October 10, 2020

Public health officials advise the 31st and 32nd deaths due to COVID-19 have been reported, a female in her 90s and a female in her 80s, both from Winnipeg. These cases were previously

announced.

The current five-day COVID-19 test positivity rate is three per cent and 97 new cases of the virus have been identified as of 9:30 a.m. bringing the total number of cases in Manitoba to 2,524.

Today's data shows:

- nine cases in the Interlake-Eastern health region;
- one case in the Northern health region;
- seven cases in the Prairie Mountain Health region;
- six cases in the Southern Health – Santé Sud health region; and
- 74 cases in the Winnipeg health region.

The data also shows:

- 1017 active cases and 1,475 individuals have recovered from COVID-19;
- there are 24 people in hospital and four people in intensive care; and
- the number of deaths due to COVID-19 is 32.

Laboratory testing numbers show 2,196 tests were completed yesterday bringing the total number of lab tests completed since early February to 205,552. Case investigations continue and if a public health risk is identified, the public will be notified.

With Thanksgiving this weekend, public health officials are reminding Manitobans that residents of personal care homes are very vulnerable to COVID-19. Any visits over the Thanksgiving weekend should be planned with caution. Guidelines for how to enjoy fall holidays and celebrations while reducing the potential spread of COVID-19 are available at:

<https://www.gov.mb.ca/covid19/updates/prepareandprevent.html#holidays>.

Due to the long weekend, the regularly scheduled Monday in-person update will move to Tuesday, Oct. 13. Bulletins will continue to be posted every day.
