#RESTART^{MB} Pandemic Response System

Provincial Response Level: RESTRICTED

Community transmission of COVID-19 is occurring. However, the virus is being transmitted at levels that public health and the health system can manage. The Chief Provincial Public Health Officer has set the response level to Orange.

COVID-19 Screening Tool - Experiencing symptoms?

Take a self-assessment

Contact Health Links-Info Santé at 204-788-8200 or 1-888-315-9257 (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: November 3, 2020

Public health officials advise five additional deaths due to COVID-19 have been reported today, including:

- a female in her 60s from the Winnipeg health region;
- female in her 80s from the Winnipeg health region;
- a male in his 80s from the Winnipeg health region, related to an outbreak at Maples personal care home.
- a male in his 80s from the Winnipeg health region; and
- a male in his 90s from the Winnipeg health region.

The current five-day COVID-19 test positivity rate is 8.6 per cent and 103 new cases of the virus have been identified as of 9:30 a.m. However, a case was removed as it was from out of province. This brings the total net new cases today to 102 and number of lab-confirmed cases in Manitoba to 6,377.

The test positivity rate in Winnipeg is 9.3 per cent. Officials advise this number does not reflect the situation in other parts of the province, as cases continue to be identified outside Winnipeg.

Today's data shows:

- 13 cases in the Interlake-Eastern health region;
- 12 cases in the Northern health region;
- two cases in the Prairie Mountain Health region;
- 15 cases in the Southern Health-Santé Sud health region; and
- 61 cases in the Winnipeg health region.

The data also shows:

- 3,495 active cases and 2,797 individuals who have recovered from COVID-19;
- there are 130 people in hospital and 20 people in intensive care; and
- the number of deaths due to COVID-19 is 85.

Laboratory testing numbers show 2,410 tests were completed yesterday, bringing the total number of lab tests completed since early February to 265,264. Case investigations continue and if a public health risk is identified, the public will be notified.
