#RESTART^{MB} Pandemic Response System

Provincial Response Level: RESTRICTED

Community transmission of COVID-19 is occurring. However, the virus is being transmitted at levels that public health and the health system can manage. The Chief Provincial Public Health Officer has set the response level to Orange.

COVID-19 Screening Tool - Experiencing
symptoms?

Take a self-assessment

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: November 4, 2020

Public health officials advise two additional deaths due to COVID-19 have been reported today,

including:

- a female in her 80s from the Winnipeg health region and linked to the outbreak at Maples personal care home; and
- A female in her 90s from the Winnipeg health region and linked to the outbreak at St. Boniface hospital.

The current five-day COVID-19 test positivity rate is 8.5 per cent and 374 new cases of the virus have been identified as of 9:30 a.m. and brings the total lab-confirmed cases in Manitoba to 6,751.

The test positivity rate in Winnipeg is 9 per cent. Officials advise this number does not reflect the situation in other parts of the province, as cases continue to be identified outside Winnipeg.

Today's data shows:

- 12 cases in the Interlake-Eastern health region;
- 14 cases in the Northern health region;
- five cases in the Prairie Mountain Health region;
- 67cases in the Southern Health-Santé Sud health region; and
- 276 cases in the Winnipeg health region.

The data also shows:

- 3,772 active cases and 2,892 individuals who have recovered from COVID-19;
- there are 140 people in hospital and 21 people in intensive care; and
- the number of deaths due to COVID-19 is 87.

Laboratory testing numbers show 3,163 tests were completed yesterday, bringing the total number of lab tests completed since early February to 268,504. Case investigations continue and if a public health risk is identified, the public will be notified.
