COVID-19 Screening Tool - Experiencing symptoms?

Take a self-assessment

Contact **Health Links-Info Santé** at **204-788-8200** or **1-888-315-9257** (toll-free) if you're experiencing symptoms of the 2019 novel coronavirus.

Do not call 911 unless it is an emergency.

Current Situation

NEW Last updated: March 16, 2021

Public health officials advise no additional deaths in people with COVID-19 reported today.

The current five-day COVID-19 test positivity rate is 5.2 per cent provincially and 3.7 per cent in Winnipeg. As of 9:30 a.m. today, 111 new cases of the virus have been identified. However, one case has been removed due to data correction. This brings the net-new number of cases today to 110 and the total number of lab-confirmed cases in Manitoba to 32,903.

Public health officials are announcing that 13 additional confirmed cases as a result of the B.1.1.7 COVID-19 variant of concern first identified in the United Kingdom and one confirmed case as a result of the B.1.351 COVID-19 variant of concern first identified in South Africa have been detected. The cases identified today are all from the Winnipeg health region.

Today's COVID-19 data shows:

- one case in Interlake-Eastern health region;
- 71 cases in the Northern health region;
- three cases in the Prairie Mountain Health region;
- five cases in the Southern Health-Santé Sud health region; and
- 31 cases in the Winnipeg health region.

The data also shows:

- 989 active cases and 30,997 individuals who have recovered from COVID-19;
- 58 people in hospital with active COVID-19 as well as 93 people in hospital with COVID-19 who are no longer infectious but continue to require care, for a total of 151 hospitalizations;
- 10 people in intensive care units with active COVID-19 as well as 12 people with COVID-19 who are no longer infectious but continue to require critical care, for a total of 22 ICU patients;
- the total number of deaths in people with COVID-19 is 917; and
- the total number of confirmed variant of concern cases of B.1.1.7 is 43 and B.1.351 is 12, bringing the total number of confirmed variant of concern cases to 55.

Laboratory testing numbers show 1,515 tests were completed yesterday, bringing the total number of lab tests completed since early February 2020 to 552,738.
