\* It is important to note that each individual may have been tested more than once.

As of March 23, 2020: Laboratory testing is done by the Dr. Georges-L.-Dumont University Hospital Centre.

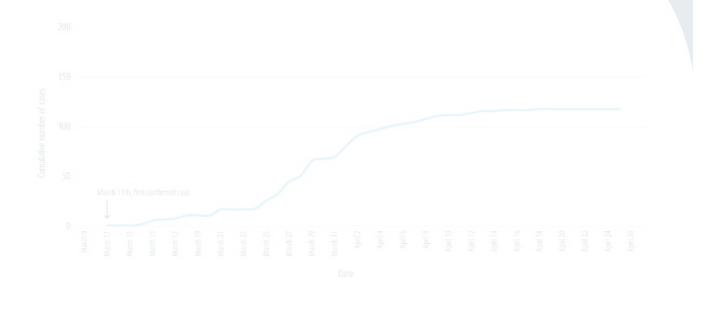

Each health zone serves different population numbers, therefore; testing numbers per zone will vary and can't be used as a direct comparison between zones.

Test volumes in each of the health zones reflect the number of citizens with symptoms that:

- · met the travel criteria;
- · were close contacts of confirmed cases; or
- were healthcare workers who requested a test.
