Nunavut COVID-19 Case Update

May 12, 2021

Total tests	Total confirmed cases	Total active cases	Total recovered cases	Deaths	Total persons followed	Current persons followed
13,770	594	69	521	4	8656	437

For vaccine statistics, click here (<https://www.gov.nu.ca/health/information/covid-19-vaccination>)

*Please note: These numbers change frequently. Every effort is made to keep this information up-to-date and complete but it may not reflect all persons followed or tested.

** Confirmed cases include those meeting the national case definitions. Persons followed includes individuals with specific symptoms and exposures as well as others who are self-monitoring or self-isolated. Not all of these individuals have symptoms or require testing.

***There may be a delay reporting attribution and statistics from cases acquired in Southern Canada. 12 cases that were detected out of territory have been attributed to Nunavut. This includes 3 deaths. Not all NU residents with COVID-19 detected out of territory will be attributed to Nunavut.

****Total vaccine doses administered is updated as regularly as possible but might be lower than the actual count.

The Government of Nunavut is actively monitoring the COVID-19 situation nationally and globally.
