Feedback

Canada's Chief Public Health Officer is in close contact with [PEI's Chief Public Health Office](#) to monitor, rapidly identify and manage any cases of COVID-19 occurring in Canada in order to protect the health of Canadians.

The Public Health Agency of Canada is also working with all provinces and territories, and its international partners, including the World Health Organization, to actively monitor the situation.

Prince Edward Island Risk Level

There are no cases of COVID-19 in Prince Edward Island and the overall risk to Islanders remains low at this time.

For all PEI residents and travellers

Visit [COVID-19](#) to learn about travel advise, risks and precautions. Public health risk is continually reassessed and updated as new information becomes available.

The infographic is titled "Public Health Advice COVID-19 (coronavirus)" and features the Prince Edward Island logo. It is divided into two main sections: "SYMPTOMS INCLUDE:" and "PROTECT YOURSELF AND OTHERS FROM GETTING SICK:". The symptoms section includes icons for fever, cough, and difficulty breathing. The protection section includes icons for washing hands, avoiding touching eyes/nose/mouth, staying home if sick, avoiding contact with sick people, and coughing into tissues.

Public Health Advice
COVID-19
(coronavirus)
