Case and vaccine counts: COVID-19

If you have a non-medical question, email covid19info@yukon.ca. If you have a medical question, phone 811.

Updated: March 31, 2021, at 17:30

We update this information daily, Monday through Friday.

Case count

Confirmed cases	74
Recovered cases	71
Active cases	2
Deceased	1

- March 31, 2021: Case 74 is in a Yukon resident who acquired the infection out of territory, was tested out of the territory and will remain out of territory until they are non-infectious.
- There is an [active potential exposure notice](#).

People tested

Total number of tests	8,471
Total people tested	6,892
Number of people with negative results	6,798
Number of people with pending results	20

Information can change as we check data or it becomes more complete.

1 person can be tested more than once for COVID-19. That's why there's a difference between these 2 sets of numbers.

Vaccines administered

1st shot	23,798
2nd shot	11,316
Total doses	35,114

Territorial and regional vaccine progress
