Case and vaccine counts: COVID-19

If you have a non-medical question, email covid19info@yukon.ca. If you have a medical question, phone 811.

Updated: April 1, 2021, at 15:00

We update this information daily, Monday through Friday.

Case count

Confirmed cases	74
Recovered cases	71
Active cases	2
Deceased	1

- March 31, 2021: Case 74 is in a Yukon resident who acquired the infection out of territory, was tested out of the territory and will remain out of territory until they are non-infectious.
- There is an [active potential exposure notice](#).

People tested

Total number of tests	8,496
Total people tested	6,909
Number of people with negative results	6,816
Number of people with pending results	19

Information can change as we check data or it becomes more complete.

1 person can be tested more than once for COVID-19. That's why there's a difference between these 2 sets of numbers.

Vaccines administered

1st shot	23,878
2nd shot	11,592
Total doses	35,470

Territorial and regional vaccine progress
