Answers on the n coronavirus (COVID-19) including the most common symptoms, how it spreads, and how we are prepared for any case. [Read more.](#)

## WHAT IS CORONAVIRUS?

Coronavirus or COVID-19 is a new strain of the coronavirus, which was first identified in Wuhan City, China in 2019. COVID-19 is a member of the coronavirus family (a group of viruses) that has never been encountered before.

## WHAT ARE THE SYMPTOMS?

The virus most commonly causes:

- ✓ coughing
- ✓ fever
- ✓ tiredness
- ✓ breathing difficulties

These symptoms are usually mild and begin gradually but commonly occur within 1-10 days after a person has been exposed.

Some people become infected but don't develop any symptoms and don't feel unwell. Around 1 out of every 6 people who gets COVID-19 becomes seriously ill and develops difficulty breathing.

## HOW DO I GET MORE INFORMATION?

For further information read our [frequently asked questions page](#) or contact the Flu Hotline on [1 800 534 8600](#) or [947 3077](#) or email [flu@hsa.ky](mailto:flu@hsa.ky).

### Self-isolation

Advice for persons with & without symptoms of infection, who are isolating themselves due to potential exposure to novel coronavirus (COVID-19). These actions will help to protect others inside & outside of your home from infection.

#### Isolate yourself

- stay in your home or temporary residence.** do not go to work, school or other public areas
- separate yourself** from others in your home or temporary residence
- use separate facilities** if sharing these should be cleaned before used by others
- have food, medication & other supplies** delivered to you
- do not have visitors** in your home or temporary residence
- try to keep away** from your pets, if unavoidable, wash your hands before & after contact

#### Prevent the spread of infection

- frequently clean** hands with soap & water or an alcohol-based hand sanitizer
- cough or sneeze** into a tissue & bin it
- use separate household items** such as towels, bedding, cups & plates
- wear a mask** when you are around others, only if you have been told to do so
- wash hands** with soap & water after using the restroom
- wash hands** with soap & water before leaving & eating

#### Take care of your health & wellbeing

For those with symptoms of infection:

- get plenty of rest** until you feel better
- drink enough** fluids so that you pass urine regularly
- take paracetamol** as directed to reduce pain & fever

For everyone in self-isolation:

- keep in contact** with friends & family by phone, video & online
- carry on hobbies** & interests within your home if you are able to
- take regular exercise** within your home if you are able to

Seek help if you develop symptoms or existing symptoms worsen (eg. difficulty breathing) by calling the Flu Hotline on [1-800-534-8600](#) or [947-3077](#). For emergencies call [911](#).
