We Work With

What Is COVID-19?

The Coronavirus Disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus, which was first identified in Wuhan City, China in 2019. The COVID-19 virus (which is called SARS-CoV-2) is a member of the coronavirus family (a group of viruses) that has never been encountered before.

What Are The Symptoms?

The virus most commonly causes:

- 📀 coughing
- 📀 fever
- viredness
- breathing difficulties
- Ioss of smell and taste

These symptoms are usually mild and begin gradually but commonly occur within 1-10 days after a person has been exposed.

Some people become infected but don't develop any symptoms and don't feel unwell. Around 1 out of every 6 people who gets COVID-19 becomes seriously ill and develops difficulty breathing.

How Do I Get More Information?

This official Cayman Islands Government website includes a lot of helpful information that is constantly being updated, including a detailed explanation of the Daytime "Soft" Curfew and Nighttime "Hard" Curfew that are in place, answers to Frequently Asked Questions and details of Policies in Action. We also have a list of helplines for critical services.

If you have medical questions, many resources are available on this website and at hsa.ky/coronavirus. If you can't find what you're looking for or have a question about your specific situation, contact your General Practitioner or the 24-hour Flu Hotline on 1-800-534-8600 or 925-6327 (Flow) or 947-3077 (Digicel) or email flu@hsa.ky . If you have a medical emergency dial 911.

If you have a non-medical question and can't find the answer on this website, contact the National Emergency Operations Centre hotline on 1-800-534-6555 or email NEOC@gov.ky.

Cayman Islands Community & COVID-19

We may be limited in our physical movements by practicing social distancing to stay safe. What you can still do is stay connected to your Cayman Community. Learn about what's happening with your neighbours and the community at large here.

COVID-19 FAQs

What Is COVID-19?

The information and studies we are receiving on COVID-19 grow by the day, and so does the understanding. The advice from our Chief Medical Officer is that shared by national public health agencies such as the Centers for Disease Control in the USA, Public Health England and the World Health Organization. <u>Read</u> <u>more</u>.

What Suppression Levels Are We On?

We are currently on the following suppression levels for the Cayman Islands. Each suppression level and guidance is specific to each island:

- Grand Cayman, Suppression Level 3
- Cayman Brac, Suppression Level 3
- Little Cayman, Suppression Level 2

The latest suppression information for the Cayman Islands can be found here.

What Should I Do If I Think I Have COVID-19?

If you are having a medical emergency, including difficulty breathing, dial 911. Unless you require emergency medical care, stay home. Do not visit a medical centre or hospital. Call your General Practitioner or the 24-hour Flu Hotline 1-800-534-8600 / 925-6327 (Flow) / 947-3077 (Digicel) or email flu@hsa.ky for advice. You can also take our online COVID-19 self-assessment <u>here</u> to determine if you may need care. <u>Read more.</u>

What Should Businesses Do?

The Cayman Islands Government issued advice on how to prepare ahead of a potential community case. We are also keeping this website updated to reflect the latest policies, advice and Government relief measures for businesses. <u>Read more</u>

Prevention Tips

The best way to protect yourself and others from the spread of COVID-19 is to practice these three tips:

- Catch it. Catch a cough or sneeze in a tissue. If you have nothing to use, use your elbow and not your hands.
- Sin it. Bin the tissues after use. Viruses can live for hours in tissues.
- Kill it. By avoiding close contact with those suffering from acute respiratory illness, avoiding travel if you have flu-like symptoms (or a cough or a fever) we can help kill the virus.

Cayman Prepared

Hazard Management Cayman Islands has overall responsibility for the national Comprehensive Disaster Management programme, including preparedness, response, mitigation and recovery.

HMCI is responsible for the National Emergency Operations Centre (NEOC), which is activated to direct and coordinate the response to national threats. <u>Read more.</u>
