We Work With What Is COVID-19?	
What Is COVID-19? The Coronavirus Disease (COVID-19) is an infectious disease caused by a newly diswas first identified in Wuhan City, China in 2019. The COVID-19 virus (which is call of the coronavirus family (a group of viruses) that has never been encountered before	led SARS-CoV-2) is a member

The virus most commonly causes:

What Are The Symptoms?

- coughing
- fever
- tiredness
- breathing difficulties
- loss of smell and taste

These symptoms are usually mild and begin gradually but commonly occur within 1-10 days after a person has been exposed.

Some people become infected but don't develop any symptoms and don't feel unwell. Around 1 out of every 6 people who gets COVID-19 becomes seriously ill and develops difficulty breathing.

How Do I Get More Information?

This official Cayman Islands Government website includes a lot of helpful information that is constantly being updated, including a detailed explanation of the Daytime "Soft" Curfew and Nighttime "Hard" Curfew that are in place, answers to Frequently Asked Questions and details of Policies in Action. We also have a list of helplines for critical services.

If you have medical questions, many resources are available on this website and at hsa.ky/coronavirus. If you can't find what you're looking for or have a question about your specific situation, contact your General Practitioner or the 24-hour Flu Hotline on 1-800-534-8600 or 925-6327 (Flow) or 947-3077 (Digicel) or email flu@hsa.ky . If you have a medical emergency dial 911.

If you have a non-medical question and can't find the answer on this website, contact the National Emergency Operations Centre hotline on 1-800-534-6555 or email NEOC@gov.ky.

Cayman Islands Community & COVID-19

We may be limited in our physical movements by practicing social distancing to stay safe. What you can still do is stay connected to your Cayman Community. Learn about what's happening with your neighbours and the community at large here.

Prevention Tips

The best way to protect yourself and others from the spread of COVID-19 is to practice these three tips:

- Catch it. Catch a cough or sneeze in a tissue. If you have nothing to use, use your elbow and not your hands.
- Bin it. Bin the tissues after use. Viruses can live for hours in tissues.
- ✓ Kill it. By avoiding close contact with those suffering from acute respiratory illness, avoiding travel if you have flu-like symptoms (or a cough or a fever) we can help kill the virus.

Cayman Prepared

Hazard Management Cayman Islands has overall responsibility for the national Comprehensive Disaster Management programme, including preparedness, response, mitigation and recovery.

HMCI is responsible for the National Emergency Operations Centre (NEOC), which is activated to direct and coordinate the response to national threats. <u>Read more.</u>
