**We Work With**

**What Is COVID-19?**

The Coronavirus Disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus, which

was first identified in Wuhan City, China in 2019. The COVID-19 virus (which is called SARS-CoV-2) is a member of the coronavirus family (a group of viruses) that has never been encountered before.

## What Are The Symptoms?

The virus most commonly causes:

- ✓ coughing
- ✓ fever
- ✓ tiredness
- ✓ breathing difficulties
- ✓ loss of smell and taste

These symptoms are usually mild and begin gradually but commonly occur within 1-10 days after a person has been exposed.

Some people become infected but don't develop any symptoms and don't feel unwell. Around 1 out of every 6 people who gets COVID-19 becomes seriously ill and develops difficulty breathing.

## How Do I Get More Information?

This official Cayman Islands Government website includes a lot of helpful information that is constantly being updated, including a detailed explanation of the [Daytime "Soft" Curfew and Nighttime "Hard" Curfew](#) that are in place in Grand Cayman, answers to [Frequently Asked Questions](#) and details of [Policies in Action](#) across the Cayman Islands. We also have a list of [helplines](#) for critical services.

If you have medical questions, many resources are available on this website and at [hsa.ky/coronavirus](https://hsa.ky/coronavirus). If you can't find what you're looking for or have a question about your specific situation, contact your General Practitioner or the 24-hour Flu Hotline on 1-800-534-8600 or 925-6327 (Flow) or 947-3077 (Digicel) or email [flu@hsa.ky](mailto:flu@hsa.ky). If you have a medical emergency dial 911.

If you have a non-medical question and can't find the answer on this website, contact the National Emergency Operations Centre hotline on 1-800-534-6555 or email [NEOC@gov.ky](mailto:NEOC@gov.ky).

## Cayman Islands Community & COVID-19

## COVID-19 FAQs

### What Is COVID-19?

The information and studies we are receiving on COVID-19 grow by the day, and so does the understanding. The advice from our Chief Medical Officer is that shared by national public health agencies such as the Centers for Disease Control in the USA, Public Health England and the World Health Organization. [Read more.](#)

### What Suppression Levels Are We On?

We are currently on the following suppression levels for the Cayman Islands. Each suppression level and guidance is specific to each island:

- ▶ Grand Cayman, Suppression Level 3
- ▶ Cayman Brac, Suppression Level 3
- ▶ Little Cayman, Suppression Level 2

The latest suppression information for the Cayman Islands can be found [here](#).

### What Should I Do If I Think I Have COVID-19?

If you are having a medical emergency, including difficulty breathing, dial 911. Unless you require emergency medical care, stay home. Do not visit a medical centre or hospital. Call your General Practitioner or the 24-hour Flu Hotline 1-800-534-8600 / 925-6327 (Flow) / 947-3077 (Digicel) or email [flu@hsa.ky](mailto:flu@hsa.ky) for advice. You can also take our online COVID-19 self-assessment [here](#) to determine if you may need care.

### What Should Businesses Do?

The Cayman Islands Government issued advice on how to prepare ahead of a potential community case. We

are also keeping this website updated to reflect the latest policies, advice and Government relief measures for businesses. [Read more](#)

View all of our frequently asked questions on COVID-19 [here](#).

## Prevention Tips

The best way to protect yourself and others from the spread of COVID-19 is to practice these three tips:

- ✔ Catch it. Catch a cough or sneeze in a tissue. If you have nothing to use, use your elbow and not your hands.
- ✔ Bin it. Bin the tissues after use. Viruses can live for hours in tissues.
- ✔ Kill it. By avoiding close contact with those suffering from acute respiratory illness, avoiding travel if you have flu-like symptoms (or a cough or a fever) we can help kill the virus.

## Cayman Prepared

Hazard Management Cayman Islands has overall responsibility for the national Comprehensive Disaster Management programme, including preparedness, response, mitigation and recovery.

HMCI is responsible for the National Emergency Operations Centre (NEOC), which is activated to direct and coordinate the response to national threats. [Read more](#).

## Press Room

► Wednesday 10 June Testing Update: Of the 649 tests carried out since yesterday's press conference there are four positive results. [Read more](#).

- ▶ Tuesday 9 June Government Update: Five new positives from 690 tests and all are determined to be locally contracted. This brings the total number tested to 15,423 and the current rate of infection is very low at 1.15%. Scientific discussions on viral load are ongoing and asymptomatic spread is not ruled out. With more re-openings scheduled, to avoid jeopardising the community and the good progress made so far, people must ensure they practise hand and respiratory hygiene, physical distancing, and wear masks. [Read more](#)
- ▶ Monday 8 June Testing Update: 786 COVID-19 tests carried out since Friday's press conference, of which seven positive results. [Read more](#)
- ▶ Friday 5 June Government Update: Out of 694 test results, four are positive, with one from a known contact. Tests continue to produce "very encouraging" results. However, the positive rate for the Islands is running between 1.3% and 1.5% - a "sobering" fact. This translates to 947 persons out in the community who have the active virus in their bodies. This underlines the importance of maintaining physical distancing, wearing masks in public places and practising proper hygiene. [Read more](#)
- ▶ NGOs asked to register for COVID-19 initiative. [Read more](#)
- ▶ Thursday 4 June Testing Update: 745 COVID-19 tests of which there are four positive results. Three are assumed to be locally acquired cases who are asymptomatic and picked up through screening; contact tracing has started. The fourth positive case is a contact of a known positive person. [Read more](#)
