

## COVID-19 Coronavirus - Latest news and testing results

Exercising her powers under the Emergency Powers (Coronavirus) (Bailiwick of Guernsey) Regulations, 2020, the Medical Officer of Health has imposed a requirement on all persons arriving in the Bailiwick from anywhere in the world to self-isolate for 14 days on arrival. This is a legal requirement, and failure to comply is a criminal offence. These pages were last updated on 19 March 2020 at 00.01 hrs.

### COVID-19 Coronavirus

If you have **any clinical questions** regarding the coronavirus please call 01481 756938 or 01481 756969 between 8am and 10pm daily.

If the information provided on these pages does not answer **any non-clinical** questions please email [publichealth@gov.gg](mailto:publichealth@gov.gg).

As stated in the above image: If you have any clinical questions regarding the coronavirus please call the dedicated helpline on 01481 756938 or 01481 756969. These two numbers will be manned between 8am and 10pm every day by trained call handlers from the Joint Emergency Services Call Centre (JESCC).

If the information provided on these pages does not answer your non-clinical questions, please email [publichealth@gov.gg](mailto:publichealth@gov.gg).

For media enquiries, contact Press Room: [pressroom@gov.gg](mailto:pressroom@gov.gg) or 01481 717022.

### Should I self-isolate?

Use the 'should I self-isolate?' button below if you are unsure whether you should self-isolate. Just click the button and follow the simple questions through to the end. This 'should I self-isolate' tool does NOT apply to health and social care workers, for whom specific advice can be found [here](#).

Should I self-isolate?

On 9 March 2020, The Director of Public Health, Dr Nicola Brink, announced the first positive case of COVID-19, in the island. See [media release](#) for more details.

## Testing undertaken by Public Health Services in Guernsey

Number of samples tested	Positive results	Negative results	Awaiting results
185	1	126	58

Testing for COVID-19 is carried out by a UK specialist laboratory. The increase in demand on the UK laboratories has increased the time it takes to receive confirmed results from the standard 48 hours. For those individuals for whom we are awaiting the results, it is important to emphasize that they could be suffering from flu or another ailment. The delay in results is not an indication of a potential positive result.

The virus was originally referred to as 2019-nCoV novel coronavirus. On 11 February 2020 the International Committee on Taxonomy of Viruses designated a name to this new coronavirus-Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2). On the same day, the World Health Organization named the disease that is caused by the SARS-CoV-2 as COVID-19.
