Awareness

English Hindi

NOVEL CORONAVIRUS (COVID-19)

COVID-19 testing - when and how?

All individuals need not be tested, because

Disease is primarily reported in individuals with travel history to the affected countries or close contacts of positive cases.

WHOM TO TEST

All symptomatic people who

- Have history of international travel in last 14 days
- Had come in contact of confirmed cases
- Are healthcare workers
- Are hospitalized patients with Severe Acute Respiratory Illness (SARI) or Influenza Like Illness (ILI) or severe pneumonia.

Asymptomatic direct and high-risk contacts of confirmed cases should be tested once between day 5 and day 14 of coming in bluffer contact. Direct and high-risk contact include:

- Those living in same household with a confirmed case
- Healthcare workers who examined a confirmed case without adequate protection as per WHO

Do's

Practice frequent hand washing. Wash hands with soap and water or use alcohol based hand rub. Wash hands even if they are sticky clean.

Wear face mask while entering public places while sneezing and coughing.

Thrive well because the disease may immediately after use.

See a doctor if you feel chest pain, difficult breathing and cough. While visiting doctor wear a mask to protect your mouth and nose.

If you have these symptoms please call State helpline number or Ministry of Health & Family Welfare's 24x7 helpline at 011-23170000

Avoid participating in large gatherings.
