## Awareness

English Hindi

# NOVEL CORONAVIRUS (COVID-19)

## COVID-19 testing - when and how?

All individuals need not be tested, because

Disease is primarily reported in individuals with travel history to the affected countries or close contacts of positive cases

### WHOM TO TEST

All symptomatic people who

- Have history of international travel in last 14 days
- Had come in contact of confirmed cases
- Are healthcare workers
- Are hospitalized patients with Severe Acute Respiratory Illness (SARI) or Influenza Like Illness (ILI) or severe pneumonia.

Asymptomatic direct and high-risk contacts of confirmed cases should be tested once between day 5 and day 14 of coming in further contact. Direct and high-risk contact include:

- Those living in same household with a confirmed case
- Healthcare workers who examined a confirmed case without adequate protection as per WHO recommendations
