

Latest updates

As at 4pm on 1 May 2020, in the Isle of Man there have been:

Confirmed cases 316	Hospital admissions 21
Total tests 3228	Concluded tests 3149
Awaiting results 79	Awaiting tests 31
Number of deaths 22	Presumed recovered 271
Number of deaths in hospital 5	Number of deaths in the community 17

This information is also [available as open data](#).

Daily confirmed cases

As at 4pm on 1 May 2020

-  Likely uncontrolled progression
-  DHSC planning assumptions
-  Optimal social distancing
-  Three day average
-  Actual cases

The graph shows the daily confirmed cases and the projected infection rates for a best case scenario compared to a likely uncontrolled progression. The graph demonstrates the importance of social distancing to avoid a sharp peak of infections and ensure our health service is able to manage the number of cases it experiences.

Borders (all ports)

Closed to everyone from Friday 6 am on 27 March 2020 (except key workers, subject to prior approval, and Isle of Man residents returning from overseas – see: [Travel and Borders](#))

Businesses

To help reinforce social distancing all non-essential shops and community spaces have now been closed (from 11:59pm on Thursday 26 March). Essential services and suppliers remain open and will be following strict social distancing guidelines.

The full list of closures and exceptions are [listed online](#).

As of Friday 24 April, some limited sectors may return to work but only where it is possible for them to do so whilst adhering to strict social distancing guidelines.

These businesses are:

- Any construction business.
- Any business of a tradesperson, including and not limited to plumbers, electricians, carpenters, heating, gas or air condition engineers; roofers and general builders.
- Any business of landscaping, gardening or related activity.

It is important that any return to work must be done within social distancing guidelines, which means workers should remain a minimum of 2 metres away from customers and other staff members at all times.

For all businesses that have not been mandated to close, employers must take every possible step to facilitate their employees working from home, including providing suitable IT and equipment to enable remote working. Businesses where working from home is not an option may be operational but must make sure strict social distancing and health guidelines are in place to protect workers.

Further information on this phased return to work can be found in the [Chief Minister's statement](#).

Freight and supplies

Continuing as normal

Gatherings & social events

The restrictions preventing any public gatherings in public spaces of two people or more (unless from the same household) continue to remain in place.

You must not:

- gather with people from outside your household
- go to see friends or family at their home
- allow your children to gather in groups with other children
- see people who are classed as vulnerable or very vulnerable except to provide essential care for them

Updated: 24 April 2020

Hospitals

Visiting highly restricted

In an emergency

Call 999

Public transport

Currently operating, please avoid non-essential travel where possible

Road restrictions

All-island speed limit of 40mph in place. Continue to observe 30mph and 20mph as currently required.

Schools

Schools are closed to most pupils, but some schools remain open for children of key workers and vulnerable or SEN children. Free school meals continue to be provided.

Shops (non-essential suppliers)

All to close by Thursday 26 March 2020. Please see the full list of closures and exemptions for more information.

Construction and trades

Emergency and essential work or work on critical national infrastructure continues to be able to take place.

Construction, trades and horticulture are now able to return to work provided that they are able to observe strict social distancing rules while doing so.

Social distancing

Social distancing remains compulsory for all residents whenever at work or outside of the home.

- Stay 2 metres (6ft) away from other people
- Wash your hands as soon as you get home

Stay home and stay safe requirement

It's important that everyone plays their part in reducing the spread of coronavirus in the Isle of Man.

This means protecting yourself, others and our health service by making sensible choices about where you go and what you do. It's important that where you can, you stay home as much as possible.

When we reduce our day-to-day contact with other people, we will reduce the spread of the infection. That's why it's really important to continue to follow good social distancing habits.
