

- As of 0:00, 12 May 2020, a total of 10,936 cases (including 1,138 imported cases) have been confirmed, of which 9,670 cases (88.4%) have been discharged from isolation. Newly confirmed cases are 27 in total.

[Table 1. Total reported/tested cases]

Period (since 3 Jan)	Total	Tested positive (PCR)				Awaiting test result	Tested negative (PCR)
		Confirmed	Discharged from isolation	Under isolation	Deceased		
As of 0:00 11 May (Mon)	668,492	10,909	9,632	1,021	256	10,922	646,661
As of 0:00 12 May (Tues)	680,890	10,936	9,670	1,008	258	16,330	653,624
Difference	(+)12,398	(+)27	(+)38	(-)13	(+)2	(+)5,408	(+)6,963

[Table 2. Imported cases in Korea (as of 0:00, 12 May 2020)]

	Total	Region/Country						Where confirmed		Nationality	
		China	Asia ex-China	Europe	Americas	Africa	Australia	Point of Entry	Community	Korean	Other
New	5	0	1	1	2	1	0	1	4	4	1
Total	1,138	19 (1.7%)	157 (13.8%)	464 (40.8%)	489 (43.0%)	8 (0.7%)	1 (0.1%)	480 (42.2%)	658 (57.8%)	1,028 (90.3%)	110 (9.7%)

\* Figures may change based on findings from ongoing local epidemiological investigation efforts.

- Of the 27 new cases, 5 were imported cases; 22 were locally transmitted cases.
  - 21 of the locally transmitted cases are related to the Itaewon club cluster.
  - 11 are visitors to Itaewon clubs; 10 are contacts.
  - 1 of the locally transmitted case (unrelated to the clubs) is a family member of a previous confirmed case.
- 9 additional confirmed cases have been reported between 0:00 and 12:00 today, bringing the total related to the cluster to 102.
  - By region: Seoul City=64, Gyeonggi Province=23, Incheon City=7, Chungbuk Province=5, Jeonbuk Province=1, Busan City=1, Jeju Province=1
  - By chain of transmission: Itaewon club visitors=73; Contacts (family/acquaintance/coworkers/etc.)=29
- KCDC asked anyone who visited any of the nightlife entertainment venues in Itaewon area including any clubs or bars from 24 April to 6 May to:
  - (1) Stay home and refrain from going to other places.
  - (2) Contact a local public health center or dial 1339 (KCDC call center).
  - (3) Visit a screening clinic and get tested, regardless of symptoms.

- KCDC also asked municipal governments and healthcare institutions and screening clinics to actively help such people get tested regardless of symptoms or which specific venue they visited.
- KCDC asked people to be highly precautionous as the local transmission of COVID-19 is currently increasing.
  - Nightlife entertainment venues such as nightclubs are recommended to refrain from operating in compliance with executive orders of 8 May. Such venues that need to stay open must comply with infection control/prevention measures. They must also comply with any additional measures enforced by local municipalities such as a ban on gathering, in accordance with the Infectious Disease Control and Prevention Act.
    - > Includes ensuring that everyone wear facemasks at all times except when eating, designating infection control manager, making a log of all visitors and checking identification card, etc.
    - > Establishments that fail to comply will face penalties and may be filed for civil damages.
- KCDC requested that the general public carefully follow the 5 Infection Prevention Rules and avoid visiting any place that makes it easy to come in close contact with many people including but not limited to nightclubs and bars.
  - "5 Basic Infection Prevention Rules for Everyone":
    - (1) Stay home for 3-4 days if you get sick.
    - (2) Keep a distance of two arms' length between you and other people.
    - (3) Wash your hands for 30 seconds. Cough/sneeze into your sleeve.
    - (4) Ventilate your space at least twice a day and disinfect regularly.
    - (5) Keep in touch with family and friends even while maintaining physical distancing.
- KCDC reminded the public to stay home and not go to work if having fever or respiratory symptoms and to call the KCDC call center (1339 or area code + 120) or contact a local public health center and get tested if having prolonged fever over 38 degrees or aggravating respiratory symptoms.
  - KCDC also asked healthcare institutions to liberally test patients with suspected symptoms.
  - KCDC urged people to visit a screening center to get tested especially if two or more persons within a household unit or travel group unit develop COVID-19 suspected symptoms.

[Table 3: Regional distribution and epidemiological links of the confirmed cases]
