The Updates of COVID-19 in Republic of Korea

27 June 2020

- KCDC noted that COVID-19 transmissions are occurring mainly through religious activities such as small group meetings and church retreat. KCDC advised people to take particular precautions during the weekend.
- In particular, since religious gatherings tend to involve a crowded environment where conversations, singing, and eating take place, making it vulnerable to droplet-induced transmission, non-face-to-face methods are encouraged and canceling or postponing small group meetings is recommended.
- If on-site worship service is held, such facilities need to reduce the number of participants to ensure that participants keep proper distance from each other, check participants for fever and other symptoms, ensure hand washing and mask wearing, and make sure not to provide meals or engage in activities that release respiratory droplets in the air (such as singing, chanting, and shouting).
