# The Updates of COVID-19 in Republic of Korea

As of 8 March, 2020

Regions	sub-total	Epidemiological links		Others*	Newly confirmed**
		n(%)	Details		
Gyeongnam	83	55 (66.3%)	Related to : Shincheonji(29), Geochang Church(10), Hanmaeum Changwon Hospital(7), Busan Onchun Church(2), Karaoke(2)	28 (33.7%)	1
Jeju	4	- -		4 (100%)	0
Total	<b>7,134</b>	5,667 (79.4%)	62.% related to Shincheonji(3,917)	1,467 (20.6%)	367

\* Not classified into a cluster or under investigation

\*\* Reported from 0:00, 7 March to 0:00, 8 March

※ The interim classification is based on the reporting location, which may change depending on further epidemiological investigation.

- In Daegu, 46 cases have confirmed at Hanmaum Apartment from 13 February and investigation is underway. 80 tenant out of 140 are tested negative and 14 people are under testing. In Gyeonggi province, 13 cases are confirmed at Bundang medical center, and all 6 hospitalized and discharged patients were admitted to the same ward. The contact tracing is still investigation. The cases who need to be hospitalized among the inpatients who had contact with the confirmed patients are currently in a single room isolation.
- KCDC urges to local government to cooperate with facilities as cases are confirmed around group facilities, multi-use facilities, and medical centers. Also KCDC recommends everyday preventive actions to help prevent the spread of respiratory diseases, and social distancing to avoid population crowding or cancel/suspend gathering activities.
- The confirmed cases by date, by region, by gender and age shown in the graph and tables as below;
