## COVID-19 and ethnicity

Total cases and tests by ethnicity

|                 | Total cases since first NZ case | Total tests for COVID-19 to date |
|-----------------|---------------------------------|----------------------------------|
| Māori           | 199                             | 254,117                          |
| Pacific peoples | 189                             | 215,158                          |
| Asian           | 474                             | 282,206                          |
| European/other  | 1,535                           | 967,033                          |
| Unknown         | 13                              | 76,810                           |
| Total           | 2,410                           | 1,795,324                        |

**Note:** This table shows the number of tests, and some people are tested more than once.

### Cases by ethnicity

#### Cases of COVID-19 by ethnicity

| Ethnicity*   | Active (confirmed and probable) | Recovered   | Deceased  | Total cases since first case | Percentage of all cases |
|--|---------------------------------|-------------|-----------|------------------------------|-------------------------|
| Māori  | 3                               | 191         | 5         | 199                          | 8.3%                    |
| Pacific peoples                                    | 2                               | 186         | 1         | 189                          | 7.8%                    |
| Asian  | 39                              | 435         | 0         | 474                          | 19.7%                   |
| Middle Eastern, Latin American and African (MELAA) | 13                              | 88          | 2         | 103                          | 4.3%                    |
| European or Other                                  | 20                              | 1394        | 18        | 1432                         | 59.4%                   |
| Unknown  | 3                               | 10          | 0         | 13                           | 0.5%                    |
| <b>Total</b>                                       | <b>80</b>                       | <b>2304</b> | <b>26</b> | <b>2410</b>                  | <b>100%</b>             |

\* The prioritised ethnicity classification system is used in this table and below. This means each person is allocated to a single ethnic group, based on the ethnic groups they identify with. Where people identify with more than one group, they are assigned in this order of priority: Māori, Pacific Peoples, Asian, and European/Other. So, if a person identifies as being Māori and New Zealand European, the person is counted as Māori. See [Ngā tapuāe me ngā raraunga: Methods and data sources](#) for further information.

The data categorized by ethnicity come from National Health Index (NHI) data collection, linked to data held in the EpiSurv database.

## COVID-19 by age and sex

### Cases by age

#### COVID-19 cases by age group

| Age group    | Active (confirmed and probable) | Recovered   | Deceased  | Total cases | Percentage of all cases |
|--------------|---------------------------------|-------------|-----------|-------------|-------------------------|
| 0 to 9       | 4                               | 103         | 0         | 107         | 4.4%                    |
| 10 to 19     | 7                               | 213         | 0         | 220         | 9.1%                    |
| 20 to 29     | 24                              | 549         | 0         | 573         | 23.8%                   |
| 30 to 39     | 18                              | 434         | 0         | 452         | 18.8%                   |
| 40 to 49     | 12                              | 336         | 0         | 348         | 14.4%                   |
| 50 to 59     | 9                               | 332         | 3         | 344         | 14.3%                   |
| 60 to 69     | 5                               | 224         | 3         | 232         | 9.6%                    |
| 70 to 79     | 1                               | 85          | 7         | 93          | 3.9%                    |
| 80 to 89     | 0                               | 24          | 8         | 32          | 1.3%                    |
| 90+          | 0                               | 4           | 5         | 9           | 0.4%                    |
| <b>Total</b> | <b>80</b>                       | <b>2304</b> | <b>26</b> | <b>2410</b> | <b>100%</b>             |

## Cases by sex

#### Total cases of COVID-19 by sex

| Sex          | Active (confirmed and probable) | Recovered   | Deceased  | Total cases | Percentage of all cases |
|--------------|---------------------------------|-------------|-----------|-------------|-------------------------|
| Female       | 35                              | 1208        | 12        | 1255        | 52%                     |
| Male         | 45                              | 1096        | 14        | 1155        | 48%                     |
| Unknown      | 0                               | 0           | 0         | 0           | 0%                      |
| <b>Total</b> | <b>80</b>                       | <b>2304</b> | <b>26</b> | <b>2410</b> | <b>100%</b>             |

## Cases by hospitalisation and intensive care

#### Cases in hospital and in intensive care (ICU) by age

| Age group | Total people hospitalised | Total people in ICU |
|-----------|---------------------------|---------------------|
| 0 to 9    | 1                         | 0                   |
| 10 to 19  | 3                         | 1                   |
| 20 to 29  | 7                         | 1                   |
| 30 to 39  | 17                        | 1                   |

| Age group    | Total people hospitalised | Total people in ICU |
|--------------|---------------------------|---------------------|
| 40 to 49     | 17                        | 3                   |
| 50 to 59     | 28                        | 4                   |
| 60 to 69     | 23                        | 4                   |
| 70 to 79     | 18                        | 4                   |
| 80 to 89     | 8                         | 0                   |
| 90+          | 4                         | 0                   |
| <b>Total</b> | 126                       | 18                  |

#### Cases in hospital and in intensive care by sex

| Sex          | Total people hospitalised | Total people in ICU |
|--------------|---------------------------|---------------------|
| Female       | 65                        | 6                   |
| Male         | 61                        | 12                  |
| <b>Total</b> | 126                       | 18                  |

## Details of past cases

We publish details about every person with COVID-19 (confirmed or probable) in a downloadable spreadsheet below. For privacy reasons, this data only includes:

- Date potential case was notified
- Sex of case
- Age group of case
- DHB where the case lives - listed as "Managed isolation & quarantine" for border cases
- If the case is related to overseas travel

This file covers all cases from 26 February 2020 to 10 March 2021.

[COVID-19 case details through 10 March 2021 \(CSV, 158 KB\)](#)

Researchers can request detailed data on COVID-19 in New Zealand by sending an email to the Ministry of Health Data Services team - [\[email protected\]](#)
