# COVID-19 (novel coronavirus)

There are currently outbreaks overseas of a new disease called COVID-19. This section provides the latest updates, information and advice on COVID-19.

## Current situation

The fifth case of COVID-19 has been confirmed in New Zealand. See the [media release](#) for more information.

With continued vigilance the chance of widespread community outbreak is expected to remain low.

People coming into New Zealand should check our [information for travellers arriving to New Zealand](#) as they may be subject to border controls or asked to self-isolate.

We're also asking people who have visited [countries or areas of concern](#) and who have developed symptoms of fever, cough or shortness of breath to seek medical advice – phone Healthline's dedicated COVID-19 number [0800 358 5453](#) or contact your GP, including phoning ahead of your visit.

For COVID-19 health advice and information, contact the Healthline team (for free) on [0800 358 5453](#) or [+64 9 358 5453](#) for international SIMS.
